Its 3 in 1 :- PAID TO CLICK PAID TO READ EMAILS PAID TO SURF sernames / Passwords Before it used a userid based on the time you joined, if you where the fifth person to join, your login would be 5, this is unprofessional, in several aspects and has been worked into a username based system. Featured Ad and Featured Banner Rotator You can setup advertising campaigns for 180x100 Featured Banner Ads. Active front page statistics Display how many users are online, and how many members you have had Ability to Disable / Enable side bar features on the fly from the administrators backoffice. All of the features on the right side of the page are dynamic, if you don't wish to display a featured banner on your site, simply login to your admin office, and turn off Featured Banners and it will no longer display them. Advanced Credits based advertising We have implemented a new Credit based advertising system that is automated, and provides automated transactions giving you more time to spend on advertising and marketing! Featured Ad, Featured Banner, Banner, Featured Link, Signup and Paid E-Mail credits are all automated, and available for purchase by members. Advertising Packages Manager We have added a brand new package manager, allowing you to create advertising specials with almost any combination of Credits. Members advertising Manager Members can now specify what ad's they want, allocate X amount of credits to that ad, and view realtime statistics for that advertisement via their back office. Automated Referral Contest Manager Now you have the ability to run Automated referral contests! Daily, Weekly, Monthly, You choose! Set up to a 10th place prize, Offer points, cash or advertising credits for the winners! Prizes are shown on the homepage for maximum exposure! Website Statistics Now on the home page of the admin panel, you can view in depth information about your website. How many members signed up today, how many members there are total, how many website visitors there have been total, how many visitors there have been today and much more! Automated Paid Email System This system will send out paid emails (That members setup through their back office) so there is no more manual email advertising campaign's! Paid to Take Survey's We now offer the ability for your members to add, update, and manage paid online survey's. Paid to take survey credits are now also available as a purchasable item. Paid to Read Ad's We now offer paid to read ad's, where members get paid to read an ad, and then

view a website for up to 30 seconds. Email individual Members You can now email each member individually. Assign credits to member accounts You can now assign credits to individual member accounts, so if you wish to sell using any other medium than the website, you can now credit member accounts with their purchase directly from the admin office! Convert points to credits, cash or advertising Members can now convert the points they earn to advertising credits or cash directly. The conversion ratios are editable in the administration office. Purchase advertising with account funds Members can use their account funds to instantly purchase advertising via the website interface. This can be enabled or disabled for each advertising method (banners, featured ads, etc) in the admin interface. Mass emailer to all members You can now send an email blast to all members via your admin interface, without having to create a paid email campaign. Keep members up to date with a newsletter for your website! Custom Menu Designer We now offer the ability for you to easily add and remove menu options in the administrative back office for both the members and main website menu's. Easily add a link to your forum, or another website on the menu! Customize the information you want to collect on your members! Advanced Profile / Membership options We now offer the ability to add / remove sign-up form information (Such as Country, State, Zip, Interests, Language and more) for when members join. This is editable in your administrative interface. Payment Processors Members can purchase advertising with Paypal*, Account Funds*, AlertPay*, Stormpay, E-Gold and Moneybookers. Members can request payouts with Paypal, AlertPay, Stormpay, E-Gold and Moneybookers, or choose to purchase advertisments. All payment methods can be enabled and/or disabled in the administrative interface. * Indicates a payment method is fully automated and requires no admin intervention for the order to be completed. (IPN Integrated)
