The Ultimate Webmasters Website Get instant Page Rank information for up to ten sites at the click of a button. Monitor your web site(s), your competitors web site(s) or find suitable link partners with the brand new Page Rank Explorer. What Is Page Rank? Google Page Rank (or PR) is basically an indication of the number of websites that link to a particular site and particularly an indication of the quality of those links. PR ranges from 0 to 10 (with 10 being the best and 0 being the worst). The majority of small business sites generally rate between 0 and 5. Why Is Page Rank Important? You may attract higher quality link partners to your site. Peoples perception is that your site has lasting power. People will want their sites to be like yours. People may hold your site in higher regard than a competitors. Features At A Glance: Quickly check up to 25 domains for the page rank with this handy little program. It remembers the PR of the last check so you can get a before and after overview. You can copy and paste domains and export to Comma Separated (csv) document. Even now, as you read this page many people browsing your site(s) will be looking for high ranking web sites to exchange links with or deciding whether to make a purchase from you based on your Google Page Rank.
