"Discover How Our Subliminal Message Software Can Re-Program Your BRAIN To Get Maximum Results in ANY Area of Your Life!" And how you can accomplish these life-changing results with virtually no effort on your part! All you do is make a few clicks on your computer and then go about your normal computer activities while our software programs you for success! Working, programming, reading email, surfing the Web or any other thing you do at your computer - as long as you are watching your monitor, you will be flooded with powerful messages! It's that easy. Dear Friend, If you've ever researched ways to improve yourself personally or professionally, you've come across thousands of people who have had success with affirmations. This is basically repeating positive phrases and goals over and over again. Eventually the phrases get to your subconscious mind (the real powerhouse) and then become reality in your life. But here is a problem with affirmations. Most of the time, our conscious mind is so critical with our affirmations that it never even gets to our subconscious. Here is an example: You weigh 180lbs and want to get down to 160lbs. So you try using the power of affirmations. You repeat over and over again, "I am healthy and happy weighing 160lbs." Now here is where the problem arises. Many times, your conscious mind just doesn't believe that the affirmation can actually happen. So when you are repeating the words, "I am healthy and happy weighing 160lbs," your critical conscious mind is saying, "Yeah, right. There is no way I are going to weigh 160lbs anytime soon." And so the affirmation has lost about 95 of its effectiveness. Now maybe with continued repetitions, the affirmation may get to the deeper subconscious mind without being filtered too much. But wouldn't it be much easier and faster if you could send messages directly to your subconscious mind (bypassing the critical conscious mind altogether)? Of Course it Would! And That's Why Our Subliminal Message Software Library Was Created! Instead of repeating phrases all day long, this neat tool helps broadcast messages directly to your subconscious by flashing the powerful messages on your computer screen. You see, although our conscious mind can only focus on one or two things at a time, our subconscious can take in everything at once. So although our conscious mind can't really decipher the message being displayed, our subscious can. This is important because this is how we bypass the critical mind to access the subconscious directly. Think

about it: the average American today spends hours in front of the computer (even more so if you are using your computer to help generate income). Why not make better use of that time by having our Subliminal Message Software running discreetly in the background - flashing powerful affirmations to your subconscious and thus improving yourself in the process? Our Software Programs Your BRAIN for Success While You Do NOTHING! This software is incredibly easy to use. You pretty much set it once to your preferences, and then let it run in the background. It will display positive affirmation messages on your computer screen so fast that you don't even notice them! (You can slow it down too so you can read the messages if you like) Here are some of the features of Our Subliminal Message Software Library Titles: - Each title contains 20 pre-loaded messages that were researched and hand-picked to cause the desired change in the shortest amount of time. - allows you to load up to 10 of your own messages into the software. (Priceless!) - allows you to customize the text to your liking (size, color, font, etc) - runs quietly in the background while you focus on other things - can customize how often and how long messages are displayed - can customize message "transparency" - displays messages in random order

(\$97 Value!) So How Much Are These Powerful Tools Going To Cost You? Think about this for a moment: how much time do you spend in front of your computer? If you are like myself and many Americans, you spend at least two hours a day on the computer. How much would you invest if you could be constantly improving yourself every second that you were at the computer? Even while just surfing the Net or checking your email...you could be bombarding your subconscious with powerful messages! Even for a one-time payment of \$297 this would still be a great investment. But I am not selling it at that price..... The Best Option: Order The Entire Library of Our Subliminal Software, WITH Master Resale Rights,
