With Easy Icon Maker 2 you can create awesome looking 3D logos, icons, text, and much more... all in just a few minutes using a unique set of Photoshop actions and layer styles. You don't need any expensive 3D editing program or any Photoshop Plugins. All of these 3D effects are done using action scripts and layer styles. Let me show you how easy it is... Create an Awesome 3D Image in 3 Simple Steps... 5 Different 3D Perspectives To Choose From... You can apply these 5 different 3D perspectives to any text (with any font) and any other Photoshop layer. Exactly what you get... 1. Icon Templates You get 36 pre-made templates. Each of these templates comes pre-installed with some different shapes like checkmarks, text, and other signs. They also come pre-styled with some nice layer styles and nice color combinations. So you don't have to know anything about design... just add your own signs or text to the templates, and you're done. Each of the templates above can be fully customized to fit your needs.

NOTE: you don't have to use any of these templates with the action scripts. You can use any Photoshop file of your own that has at least 1 layer. 2. Layer Styles To make it super easy for you to style your text, logos, and icons, you're getting over 200 layer styles. You can apply these layer styles to any layer in your Photoshop file, and to any part of the included templates. 3. Action Scripts These are the action scripts for turning your 2D layers into 3D with just a few clicks. You'll get 5 different perspectives to choose from, plus some additional actions to quickly resize your files, combine all layers into one, and turn text into a vector shape. 4. Video Instructions This product is really simple to use, and literally takes just a few minutes to get started. But you still get step-by-step video instructions to be up and running right away. So how much is this product? \$2.99 Tags: 3d, 2, v2
