"Unlock This Unique Collection Of Pre-Built, Pre-Coded Optin Graphic Templates And Watch Your Subscriber Rate (and Profits) Shoot Through The Roof" NO GRAPHICS EDITING Required... Each Optin Template Is Professionally Designed, Pre-Coded, And Ready To Be Added To Your Sales Pages In Minutes! Who hasn't heard the term... "The money's in the list?" I think we all have... right? But I never realized how PROFITABLE these 5 little words were until I started building my own lists and sending promotional emails on a regular basis. Now... My number one focus - whenever I setup any type of website - is providing a captivating, irresistible offer that gets folks to optin to one of my lists. It's that simple! Ya see... once I realized just how much money I could make through email marketing... I became obsessed with building my lists as fast as humanly possible.... I finally realized - beyond a shadow of a doubt - that the more folks who optin into my lists, the more money I'd be putting into my bank account each and every day - and that was a great feeling! So I quickly began trying everything imaginable to build my optin lists as fast as humanly possible... I tested and tweaked everything regularly... I redesigned my sales pages and squeeze pages almost daily... I wrote (and re-wrote) new headlines constantly I tested new sales copy (even hired a few pros)... I changed my FREE offers regularly... I changed the e-cover graphics I used for my reports and ebooks... I used various scripts to create urgency in my offers... the list goes on and on... And then one day I tried something I'd never tried before and WOW!... I quickly realized I stumbled upon a GOLDMINE! I took the plain ole' BORING optin forms that I had on all of my web pages - you know the ones you get from Aweber or Get Response (just to name a few) - and instead of just placing that simple form on my web pages as I always did in the past, I now started placing my optin offers inside a Graphical Optin Form. BANG! Instant results... and not just a few more measly subscribers each day either... I'm talkin' as much as a 35 increase in my subscriber rates virtually overnight. I was shocked... amazed... stunned! Could it really be this easy? Yes! Just think about it... Let's say you're averaging 50 new subscribers each day from one of your optin offers and you suddenly increased that number by 35... Now you're looking at about 70 new optin subscribers per day - an extra 20 optin subscribers each day just from one of your optin offers. That's just over 7,000 additional email

addresses in your list each year! And if you figure that each optin subscriber is worth just \$3.00 each (Lifetime Value).... That's An EXTRA \$21,000.00 in additional profits in your pocket just from changing that BORING old "standard" form into something really ATTRACTIVE! Not to mention that's just from ONE OF YOUR LISTS. If you have 5, 10, 15 lists you're building... that could potentially be HUNDREDS OF THOUSANDS per year in additional profits just from making one simple change to your optin offers... But here's the problem... You see... I quickly found out that a professionally designed optin graphic isn't cheap! In fact... it would normally cost me about \$75-\$150 each time I needed to have one created. After all, it isn't just the design of the graphic... but it's also the "tricky" coding (behind the scenes) to go along with it... ... And I understand that for most folks... that's just not affordable. Especially when you're out there just trying to test new niches to see what fish are biting. Having to fork out \$150.00 each time you want to test an offer? Sounds a bit crazy to say the least.... But what if you found a solution that was not only dirt cheap but also gave your web pages that same professional look - PLUS - a custom designed and coded optin graphic ... for mere pennies on the dollar? Think you might be interested? Introducing The "Graphical Optin Template Pack" If you can "cut and paste" then you're well on your way to instantly increasing your optin rates and profits!
