Your PC needs to be cleaned. WinCleaner does it for you in just One-Click. It happens every time you visit a Web page. Your computer picks up an image here, a cookie there. In no time at all you've got thousands of files cluttering your hard drive, making your PC sluggish and slow to perform. More importantly, this clutter threatens your privacy by leaving a record of the websites you've visited. It's a big risk to take when WinCleaner OneClick can put your mind at ease with just a simple click! Did you know that as you use your computer, the heart of Windows--the Registry--gets cluttered and interferes with your PC's performance? WinCleaner OneClick's market leading Registry Cleaner safely cleans, repairs and optimizes the Windows Registry to remove errors and improve your PC's performace so you can get back to doing what matters to you most! All of this--automatically--with the click of a button. WinCleaner OneClick digs out and deletes all of those unwanted, unseen records. Here are the benefits of a WinCleaner tuned PC: * Restored Power and Stability * Accelerated System Startup times * Valuable hard drive space is recovered * Your privacy is protected * Improved overall PC performance Best value for your time and money You don't need to buy, learn and use separate programs to do the dozen or more PC maintenance chores that WinCleaner OneClick does automatically! Product Description Ensures that your Windows runs optimally / Uninstalls Stubborn Programs / Removes Internet Clutter to speed up surfing and protect your privacy WinSmart Mover relocates applications and folders from one drive to another without having to uninstall/reinstall. UNDO safely restores all or any part of a cleanup, in case you change your mind. AutoUpdate keeps your version of WinCleaner One-Click CleanUp up-to-date, automatically checking for system upgrades. Product Features * Keep Your PC working faster, smoother and trouble free * Registry Cleaner safely cleans, repairs and optimizes the Windows Registry * Accelerate System Startup times * Recover valuable hard drive space * Protect your privacy when visiting Web pages
