Now question is how and when to use it ?? Well, Did you ever thought of that you could actually spy on a girl using this. Just install this software in her laptop or computer and it will start with complete stealth. She won't ever know that she is being spied or she is being bugged. You can actually see what SHE IS DOING in her room. You can also use this software to bug on your friends , listen to what they say while you are not around. Listen to private conversations completely anonymously. NO ONE WILL EVER KNOW IT IS YOU WHO IS SPYING.... Well coming over to a family use, this can also be used to monitor kids in the room while you are away for work. Great use isnt it?? Well being a boss, you might need to know what your employees are talking about you, USE THIS... This software has a broadcasting technology.
