Turn any website into an instant success with this powerful new software! *NEW* Mind-Blowing Technology Delivers An Endless Flood Of Traffic To Your Website Automatically At The Push Of A Button! Enjoy Unlimited Hits For Life! From: Timm Miller Targeted traffic at the push of a button! Does anything else really need to be said? Well, I'll continue anyway since you're probably a bit skeptical, but even the biggest doubters should take the time to read this page (or at least print it out). With unlimited hits on the line and a 100 Percent guarantee, how could you not? Alright then, let's get started! So how much time and money do you spend building traffic to your website? Big-budget companies spend thousands of dollars per month. Can you really compete with that? Of course not! Ok, so you're not trying to outsell eBay or Amazon, but you'd still like to make some money and have a successful website, right? In order to do that, you need people to visit your site - and lots of them! Just in case you've been in a coma or living in a cave, this is what we call "traffic". Of course, we all know that you need traffic in order to run a successful website, but getting enough visitors to make any sales can often seem impossible. In fact, many marketers end up losing money because they spend more on traffic than they make off those who visit their website! Why is this happening? There's not just one reason - it's a combination of many factors. 5 Reasons Why It's Become So Hard To Drive Quality Traffic To Your Website Without Losing Money... Guaranteed Traffic Companies Are Ripping You Off! Have you ever purchased a package of hits from a company that sells guaranteed traffic (aka wholesale traffic), only to find that you haven't made a single sale by the time the package runs out? You're not alone! The truth is that most of these companies don't actually send visitors to your website; they show your site in a small pop-up window. Obviously, pop-ups are much less effective than if a person was actually sent to your website. Plus, pop-ups will only show a small corner of your website, so visitors don't actually know what your website's about and there's very little chance that they will take the time to find out. Also, many of these companies have been known to use tools that inflate the number of actual hits being sent to your website, meaning you don't receive anywhere near the amount of traffic that you paid for. Getting a Decent Search Engine Ranking is Costly! There are millions of websites across the internet and everyone wants a top search engine ranking. Do

you see the problem? Getting a decent ranking for a popular keyword has become nearly impossible if you don't shell out big bucks. First you wait 6 weeks for your site to even show up in the search engines (unless you pay \$300 for a quick listing in Yahoo), then you hope for the best. If you're not listed in the top 20 for a keyword, you won't be getting many visitors from the search engines.

Most Forms of E-mail Marketing Are Now Considered SPAM! SPAM has become such a broad term these days and will get you into a lot of trouble, even if you have not violated any laws. Most forms of e-mail marketing, including direct e-mail and bulk e-mail, are now considered SPAM by nearly everyone. You can follow all legal guidelines when sending out your mailing and still risk being labeled a "spammer". In reality, it doesn't much matter whether you think you're a spammer - it only matters what the recipient of your e-mail thinks. One safe way to market through e-mail is by building your own opt-in list, but even then people will often forget that they subscribed to your list and report you for SPAM anyway! If you are reported for SPAM, you can lose your ISP, website, e-mail account, and much more!

Traffic Exchanges Require Hours and Hours of Clicking! Traffic exchanges (also known as startpage/click exchanges) are popular because they offer a free way to earn traffic. The idea is simple - you view other people's websites in exchange for traffic. However, most traffic exchanges make you view a website for 30 seconds to earn a credit, then require 2 credits for each hit they send to your website. That's 60 seconds of clicking for just 1 hit! You could click for an hour straight and still only get 60 hits. You'll be very lucky to make a sale off of 60 hits, even after all that work!

FFAs and Classified Ad Sites Are a Thing of the Past! Believe it or not, there actually was a time when Free-For-All links (FFAs) worked. As most of you have realized by now, that is no longer true. There are so many FFA pages and automatic submitters these days that there's very little chance anyone will ever see your link - no matter how many times you post each day. Since everyone uses automatic submitters to post their link on the FFA pages, they don't ever view the page that has your link on it. Their link goes on top, knocking your link down another spot. With so many auto-submitters being used, your link quickly slides off the FFA page, without ever being seen by human eyes.

What Is It Worth To Have All The Traffic You Want Delivered To Your Website At The Push Of A Button? Can you really put a price on unlimited traffic? Traffic is such a valuable commodity and the success of your website depends on it. So what in the world do you charge for a lifetime of visitors sent instantly at the push of a button? Well, let's see what the wholesale traffic companies would charge you by using the example below.

What Traffic Companies Would Charge: Say you purchased 1,000 hits per day from a popular wholesale traffic company. For this example, we'll say

that the traffic company charges you a flat rate of \$5 for every 1,000 visitors (this is a very conservative estimate of what an actual wholesale traffic company might charge). So that's \$5 per day multiplied by 365 days in a year. You'd end up paying a total of \$1,825.00 per year for just ONE website! Why waste all that money when the Auto Hits Machine will deliver unlimited visitors to all of your websites for life at a FRACTION of the cost?! HUGE Savings with the Auto Hits Machine: Since the wholesale traffic companies would charge you \$1,825 per year for just one website, you'd be getting a deal if you purchased the Auto Hits Machine for the same price. Don't worry, though, you're NOT going to have to pay anywhere close to \$1,825 per year. Like I said earlier, I believe everyone should have a fair chance to drive traffic to their website for an affordable price. That's why I'm offering the Auto Hits Machine for the rock-bottom, one-time fee of only \$27! That's unlimited traffic being sent to all of your websites for just \$27! You won't find a better deal anywhere! Special Introductory Offer: Save 83 Off The Regular Price! Regular Price = \$27.00! Now Only = \$6.99! Are you going to continue wasting... all your time and money HOPING for traffic? OR Are you going to begin... FLOODING YOUR WEBSITE WITH TRAFFIC TODAY! Now it's up to you. If you've read this far, then it's obvious that you'd like more traffic for your website. Why hesitate when you could have thousands of hits delivered to your website instantly?! Would you really pass up such a great opportunity at a price this low? I sure hope not! Don't wait and lose out on all the sales that you could be making TODAY! After purchase, you'll get instant access to download the Auto Hits Machine and can begin using it right away! This software will pay for itself over and over again every time you use it! Don't forget that you make 100 Percent commissions on every sale, so your cost is covered by selling just ONE! With our 100 Percent guarantee, there's no excuse for passing up this incredible opportunity. Use any of the secure payment processors listed below to download the Auto Hits Machine now!
