The auction site is one of our most popular web sites that allows you to set up your own paid auction site like ebay. The site is PHP/my SQL and runs on cron jobs for full automation. The admin area features all aspects of user and site control from account moderation payment options and advertising features. In addition, our auction site features multi currency support and payment processing support from PayPal, Stormpay and 2Checkout all moderated in the admin area, which also allows you to pick which payment processors you wish to use and set processing fees. All scripts are included to run your own high traffic auction website! Tags: php
