

Ad Rotator ****great Tool****

[DOWNLOAD HERE](#)

Are you looking for software where you can select the ads yourself? That could prove to be a better setup and more revenue for you if done that way. Ads Rotator can do just that. The software is made to place links for any affiliate programs of your choosing. You are in control of what ads are put on your webpages. This software is in contrast to some of the other ad programs, where you have to take the ones that are given to you. Basically, those are based on the kind of content you have on your site. In this case, the ad programs are in control of what ads are put on your site. There may be ads that are inserted that you may not like. Unfortunately, due to lack of control, you cant change them. However, you do have an alternative with Ads Rotator. Put yourself in control of your website and choose the ads you want with this software. You can have massive revenue and not deal with the nickels and dimes from pay-per-click programs. Then, if people violate your site, you run the risk of getting banned by the program. With Ads Rotator, you dont have to concern yourself with that. The ads you choose can provide you with greater commissions than you would get with pay-per-click ads. You might have to wait many months before you would make a profit and you have to earn so much before funds are disbursed to you. With Ads Rotator, you could get paid within a matter of weeks from the affiliate ads. When someone clicks on the affiliate ads, a new window opens up, allowing them to see what website theyve clicked on. Another good thing about this software is the affiliate links are cloaked and you dont have to concern yourself with affiliate theft. When youre in control, you can choose how you want the ads to look. You are not conformed to a certain feel or standard. With pay-per-click ads, you have to abide by the ad programs rules and regulations. Otherwise, you could risk being banned and losing your account. With this software, there is an administrative control that you can use. You can choose to add, modify or delete ads that you dont want or like. This will help you choose which ads you think will serve you better for revenue purposes. The software also allows you to check the amount of impressions for each ad on your website. You can also check your websites click-through rate. If some of your ads arent doing well, you can get rid of the poor performing ones and replace them. You cant do that with pay-per-click ads. If you want to add images to your ads, you can do that too. Theres no limit on how you want your ads to look. The software

script is uploaded to your website. It only takes a few minutes and then you're set to make changes if you wish. If you want to make more profits, then Ads Rotator could be what you're looking for. Tags: ads, ad
