How many times have your visitors got lost on your site when trying to view videos or images and they forgot where they came from? How many times have you had to give up the URL of one of your 'secret' sites because it shows in the web browser address bar? Now you can have pages open over the top of your website without fear of losing visitors. Let me give you an example: Click [HERE](#) for the old way. Click [HERE](#) for the ALE way. Now which one was more likely to keep visitors on YOUR site?. Thats not the only option available, try this effect Do you have a set of webpages such as instructions or a set of videos to follow?.
