

Website Directory Master Script

[DOWNLOAD HERE](#)

This Script is a PHP and MySQL powered links database which allows you to run a database driven categorized links web site - similar in structure to Yahoo or any other categorized links collection.

Features include: Fully database driven utilizing MySQL. Full template system allowing you to control the HTML output of the script without needing to alter any of the PHP code. Easily customizable if you wish to alter the script in any way. Very easy to admin via the web - log in and add / edit categories and links.

Visitors to your site can recommend new links, which you can then validate. Allows visitors to rate your links from 1-10, and displays average rating. Rating a link more than once is discouraged using cookies.

Number of hits each link has received is recorded and displayed. Built in Search Feature. Most popular, top rated and newest links pages. REVENUE DETAILS : Also use the website to promote affiliate banners, sell advertising space or promote your own websites through banner advertising. This Package comes with 8 AMAZING Templates you can use with your Script! It also comes with a special software you can use to edit your scripts with just a click of a button!
