Discover the power of the Feed Blaster! Brand new software revolutionizes the power of online advertising -never seen before!- BRAND NEW FOR FEBRUARY 2006! Date: Saturday, February 25, 2006 From: Sebastian Foss Subject: How would you like to put your ad right to the screens of millions in minutes? Hi, my name is Sebastian Foss. Are you like me? Frustrated by the lack of traffic coming to your Site ? After all, how many times a day are you BOMBARDED with some lame "get-traffic" scheme on the Internet? Well, I've got great news for you. One day I had an idea. An amazing idea actually. First off, let me tell you what feeds are! Think of it as a distributable "What's New" for your site. The number of web sites offering news & information using feeds is exploding! A feed is a regularly updated summary of web content, along with links to full versions of that content. When you subscribe to a given website's feed by using a feed reader, you'll receive a summary of new content from that website right on your screen or in a software feed reader. Many websites are using feeds to publish their latest information right to thousands of users within minutes. Soon everyone will be using them. This makes feeds the ideal place to advertise. More and more people are subscribing to feeds every day and there are millions who are already subscribed. Thus, your ad will reach a very broad range of potential customers with each use of Feed Blaster! Feed Blaster is the first & only submitter that can submit your ads to thousands of feeds within a few minutes! Post your ads where people read them! - What if you could place your ad into all these feeds ? Right, that would mean you would have millions of sites linking to your ad - and millions of users reading your message within minutes - and my idea actually works. I have developed a software that automatically places your ad into thousands of feeds. You will receive thousands of targeted hits to your website as Feed Blaster places your ad into feeds that match your ad's category. This method has never been released to the public

before. Very few, if anyone has implemented this. Here is one of many examples where Feed Blaster did a great job! I used it to promote my other website called ezinebroadcast and Feed Blaster produced thousands of links to ezinebroadcast- resulting in a #1 position in Google for the term "ezine advertising service". After using Feed Blaster there were about 1,300 links to ezinebroadcast.com! Here are the results of a click tracker that I used (it counts each click in an ad) for tracking results for feed blaster: (I received more than 5800 clicks on my ad within a few days after using Feed Blaster!) Im receiving more than 500 hits from Google per day + several hundred from the links in the feeds! ! These are targeted hits - which means that these hits are the best and will produce the best results ! So, How Does This Work? It's simple and takes just 15 minutes to complete. Using my automated program I have developed, just insert your ad... ..choose your ad's category... ..have Feed Blaster post your ad to thousands of feeds - your are only minutes away from receiving a steady flow of traffic to your website!
