Revealed! A Simple Step-by-Step System To Show You How To Start Your Very Own Business As A Profitable Information Product Publisher! Ive been selling information products online since 2004, and now I want to reveal to you my exact, easy to follow system that will teach you how to create your own information products, and sell them to the masses over and over again! This is your chance to finally start your own business that will make you money even while you sleep! In 2004 I started creating and selling my own information products, but I didnt instantly start making money like so many promised I would. I bought ebook after ebook, and software product after software product, but still I wasnt making a dime. I finally realized that I was just going to have to learn the hard way. So, I created my first product, tried different techniques to sell it, and slowly but surely I started making money here and there. Since then, I have created over 40 different information products from ebooks and audio ebooks to video products and membership sites. I basically make money from all of these products on autopilot. Now Ive created a system called Create Your Own Information Products, and inside of it I reveal the exact step-by-step methods I use to create ebook and audio ebook information products, and the exact methods I use to market them. Youre getting an entire system that you can easily implement today. You dont have to learn the long and hard way like I did. The only thing I teach you is what really works to make you the most money in the shortest amount of time. When you purchase the Create Your Own Information Products system, I will teach you how to... Quickly brain storm with the brainstorm sheet. This sheet will show you how to quickly and easily come up with tons of ideas of products you can create. Learn if your idea is profitable. Theres nothing worse than creating your product and finding that no one wants it. Ill show you how to know with a few quick steps if there is a market of people to buy your product before you even create it. Learn how to create your product from the ground up. I show you how to create your own product, get others to create your product for you, and how to create products from content you already may have! This is where a lot of people get stuck, but with my instruction, youll be able to breeze past it. Ill also give you step-by-step instructions on how to package your product. All the way from writing the sales letter and the order process to selling products on the backend and in the future. This is one of the

most important parts of selling an information product. The sales process never stops with your customers first order, and Ill show you how to squeeze orders out of all your customers over and over again! Im also going to give you the exact strategies I use to sell my products. You wont have to struggle to sell your product once you know exactly how I sell mine. No matter what topic your product is on, my strategies will work for you. All you have to do is read, learn, and implement what I reach you. And much much more! Ive revealed all in Create Your Own Information Products so that you can do exactly what I have done. You can now finally make money by creating easy information products that online customers are searching for! So why should you start your own information product publisher business? Quick and easy money. You dont have to spend weeks or months developing your products. The system I am giving you, teaches you how to do it in just a matter of days. You dont have to work it like a 9 to 5 job. I spend a few hours a day creating new products, and answering emails about my existing products.
