"How To Make More & More Money Online, Build Yourself A Larger & Larger List, And Recruit More & More Active Affiliates To Work Hard For You While You Do Less & Less!" Run A Subscription Site Like The Internet Marketing Pros Generate Recurring Income, Month After Month Get Paid Without Having To Set Up A Merchant Account Automatically Manage All Your Subscription Accounts Read On To Learn Why Membership Sites Are The Wave Of The Future And How Many Of The TOP Internet Marketers You Know Of Today Make It Big Through This Unique Business Model! Subject: Incredible New Software Lets You Run A Money-Making Membership Site! Dear Internet Marketer, Did you know? More than 90 of the successful Internet Marketers that you and I know of today make it BIG through use of membership sites? It's a small thing to wonder since the popularity of membership sites are growing into becoming somewhat the wave of the future. Having your own membership site can be equated to having your own personal media where you can easily dispense your knowledge, expertise and credibility in an organized, quality manner to your members. For the first time in the recent years, clubs and memberships are going digital following their profitable and successful background, making it an incentive for any beginning marketers to strongly consider starting and running their business in this time-tested path. Jupiter Research recorded a whopping US \$65 billion in online retail sales in Year 2004 alone! And this figure is projected to increase exponentially every year. The conclusion: you'd be wise starting a membership site if you want to cash in on the digital and information market. With people spending more and more in E-Commerce and online shopping, it's not at all difficult getting people to be your lifetime customers through starting and managing your own membership site as compared to 10 years ago! 4 More Great Reasons To Start Your Very Own Membership Site! You can easily prove your credibility and expertise to your members through creative use of membership sites. You can make residual income from your membership site by charging a periodical fee (i.e. monthly, annually) for your members to subscribe to your membership service. With your reputation built among your members, you can instill a positive influence over your members when it comes to sharing an expert opinion... or even buying more from you! Find your Inbox flooded with Joint Venture proposals and exclusive business opportunities - you can

now have the luxury of picking and choosing who to work with because other marketers now value your influence and marketing power! And think about the profit possibilities: * You can start your monthly membership site and charge your members a monthly fee - resulting in YOU earning residual income, the way of the rich and wealthy! * You will receive less un-subscription rates as compared to running an online newsletter a.k.a. E-zine - since you're offering long term value through use of membership sites, people have less reasons to cancel their membership access from you! * You can leverage your marketing power on affiliates - affiliates and Joint Venture partners tend to prefer promoting membership sites as they are known to be one of the best business models online. * You can build a more responsive mailing list of your own! And much more! This are only some to name! But Here's The Problem... Now it would look as if I've let the cat out of the bag but here's an often overlooked problem: starting your membership site don't necessarily come any easier. For starters, you need to have an affiliate program. This is often the lifewire of any membership site which without it, your journey to long term service and wealth are very well lightyears away. And nothing else can be more draining that managing your membership site the manual way (oh, how much I hate that word!). This isn't taking into account the regular publishing schedule you need to commit to plus handling other aspects of your membership site. Sure, there are membership site scripts alright (like... gazillions of them?) - but how many of those scripts allow you to do more and more with less and less? How many of those scripts come with an affiliate program? How many of those scripts are user-friendly? And how many of them are nowhere near half as buggy? Answer: Not many. What you really need to do in order to start cashing in on the digital/information market the smart and easy way, my friend, is to automate your membership chores as much as possible. And you're looking at the solution right here. "Wow!
