

Things To Do Listing Record Keeping Mysql Database Script

[DOWNLOAD HERE](#)

Mysql todo listing script is secured with an admin panel area which is where you can login then easily add, edit and delete things to do. This script requires basic mysql installation and does come with installation instructions. This script is a stand alone script and is used for personal use only, - The script is only setup to work with one user (You) the (Admin). You can use this script on an unlimited amount of domain names without linking to any other website, works on sub-domains, root directories, sub folders etc.. Uses a database to store and retrieve things to do also for the admin information which can be changed once logged into the admin panel.
