Facebook. You're on it, your parents are probably on it, your brothers and sisters are on it, your friends are on it. It seems like everyone is on Facebook. 500 million people at the last count were signed up to Facebook and its popularity is still growing. The media can't get enough of it and the Facebook story has reached the masses thanks to The Social Network movie. This huge surge in popularity has made Facebook into a marketing powerhouse for 100s of 1000s of business around the world, especially through the use of Fan Pages. This is where the Facebook Fan Page War Chest comes into play. I have created 7 exclusive fan page templates that will absolutely blow any other templates out of the water in terms of design and functionality (and this is just the 1st in the series). (9 more now added for the same price!) I'm selling these stunning templates complete with PLR rights. I will make updated versions of these templates available to all WSO buyers if Facebook change over to iframes. You can easily make \$197 minimum per client for installing just 1 of these mini site templates. Businesses can't get enough of them. If you don't want to do that you can just use them on your own fan pages to get massive subscriptions to your list or to promote your product.
