Slot Machine Cgi Script

[DOWNLOAD HERE](#)

SLOT MACHINE which allows visitors to your site to play a virtual slot-machine to win a product or get a free membership to your website. Player can warm-up spinning the slot machine as many times as they want before spinning for real. Multiple security features allow you to prevent abusers from using bots or cheating the sytem. Requires real email address to collect prize. If you setup the slot machine for products you can also customize and link the slot machine images so visitors are looking at products from your site. When they click on one of the images they are taken to a special product information url. Great way to build targeted email lists from your visitors and great promotional tool.
