Discover The Simple Techniques That Will Bring Dirt Cheap and Even 100 Percent Free Traffic To Your Website Within Minutes That Can Have You Profit in Less Than 24 Hours 100 Percent Guaranteed! Dear Frustrated Internet Marketer, You have tried promoting an affiliate product in the past. You sent good traffic to the affiliate site but made just 1 or 2 sales (or zero sales). You have tried promoting an affiliate product in the past. But you didnt manage to generate more than 5-10 visitors to the affiliate site. You have tried promoting an affiliate product in the past. You made good commissions. But you paid so much in advertising that you barely broke even - or even worse, you lost money You have purchased ebook after ebook after ebook. They all promise a great money making system. But when you try to apply the system, its really more complicated than it sounded - and it only appears to work for others. You are tired of waiting weeks and months before you start seeing any results after you optimize a website for the search engines. You are sick and tired of Google changing their rules all the time - but you dont know how else to promote your offers - so you swallow it and keep fighting the good fight - even though you feel that this is a dead end. You feel frustrated and uncertain of the future - even though you know that you are worth way more than you are getting paid right now (at your job or in your home-based business). I have good news for you! Affiliate Rescue: Make Money Online - on a Budget! contains very few simple but devastatingly effective ways to make a living online. These methods: - Are free or extremely cheap to use - Start showing results instantly - Are very simple to implement Granted, you will not become a millionaire by using these tactics. But, if you want to make an extra \$1,000, \$3,000, \$5000 or more per month in a safe way, then this guide is for you. Then, you can use these profits to further build your business (like buy advertising or outsource some of the work). Or, you can just keep using the same techniques since they work like a charm. Its your choice. I have been marketing online for over 6 years. I have had some great successes as well as some miserable failures. But, whatever I did, I always took note of what worked (and why) and what didnt work (and why). What is covered in Affiliate Rescue: * How to start when you have almost no money: bankrupt, broke and on the run. Right now, you may be having financial difficulties. I will give you some smart ideas to get out of this unpleasant situation (without

robbing a bank). * How to find affiliate programs to promote. You will discover the easiest ways to find affiliate programs worth promoting - as well as some little-known products that pay well but not many people promote. * How to promote affiliate products online the right way. Let the controversy begin. I will show you how to tinker with the merchants site and increase your affiliate commissions 100 percent, 200 percent or more. Some of these methods ain't pretty - but they work like gang busters... * How to get preferential treatment from merchants. I will show you how to negotiate higher commissions from merchants - without sounding needy. These methods are pretty evil, if I say so myself... * Email marketing and how to create killer follow up messages that make you money on autopilot. You may have read entire bibles on email marketing. I will give you in a couple of pages what you really need to keep in mind. Do this, do that. * How to use forums to kick-start your promotions, test your marketing message, make sales, build credibility in your market and build a list. Oh, and if you think you know how to REALLY market on forums, don't bet your house on it :-). * How to tap into the online service Yahoo Answers to gain market intelligence and tap into people who are ready to buy your product. Almost everyone is working the system the wrong way! I'll show you how it's really done. * How to get on the first page of the search engines for the best possible terms. And no, this has got nothing to do with long tail keywords or building content sites. We are lazy so we'll take a shortcut that results in less work and more money! (now that's my kinda system :-). * And much, much more!
