Max Fan Force... MaxFanForce is a simple php script (mostly done with html) that will take fans through a 3 step process when they land on your Page in Facebook. It is similar to what previous generation FBML scripts did, but now runs within the iframe requirements of Facebook Pages. It complies with the Facebook Pages Policies at the time of the development of the script as only the first step in the process, the Like step, is compulsory. The 2 remaining steps are optional with forward and backwards arrows that take fans through these. It is against Facebook Policy, at the time of writing this guide, to make the sharing step compulsory. The approach with this script is very simple. Create an irresistible offer for the fans with a product discount voucher, free download or some form of gift for stepping through the sequence of steps. Step 1: The user must Like your page to have the Next Arrow Revealed. Step 2: The user now have the option to Comment on Facebook and/or Tweet about your page. Step 3: You take them to a page where they get the Free Gift and optional Buy or leave their email address. The fact that they have Liked you mean that you page updates will appear on their wall. Absentee resellers sell digitals for less, and less is less of everything. Connecting with them is less, so customer service is less, getting support for issues with the product file or download is much less. They don't charge much of anything for what they are trying to sell so why should they devote time to servicing what they don't profit on? I on the other hand am not an "ABSENTEE" seller, I am just a click away (Mon - Sat) for support and product issues should they ever arise. I answer all email promptly. Why? Because I genuinely want to do business you! ;-)...Test me! Use the "CONTACT SELLER" link near the top of this page just under the ebox! Use the contact form and for "Subject"= Just Testing!
