

# The Simple Affiliate -resale Rights | Get 1000 S To Sell Your Product For You!

[DOWNLOAD HERE](#)

Get 1000's to Sell Your Product for You! Affiliate Programs have quickly become the most effective and popular marketing tool to increase traffic and earn extra income from your website. What is an Affiliate Program? An affiliate program allows you to have hundreds, if not thousands, of websites and webmasters selling your product or service for you. You reward the websites and Webmasters by paying them on a per-lead or per-sale basis. Most affiliate programs pay on a per-sale basis, meaning that you would pay a certain commission or percentage for each referred sale. What are some of the benefits of having your own affiliate program? \* Increase in website traffic. \* Increased sales. \* An effective means of advertising your products/services. \* A cost-effective advertising and marketing campaign. Introducing the Simple Affiliate: What is the Simple Affiliate? The Simple Affiliate will run an affiliate program for YOUR website. Some of the features of the Simple Affiliate are: Instant Account Creation Their account will be created the second they are done filling out the sign up form. The script generates a unique affiliate I.D. for each affiliate that joins your program! Unlimited Affiliates The script will replicate an UNLIMITED number of web pages and affiliate I.D.'s! Uses only Standard CGI Files This script is completely self-contained cgi based. You can even run it from a free host! All you need is cgi-bin and FTP access! Holds user's info in a flat file that can be downloaded for backups through FTP. Easily recover a database that is lost simply by uploading your most recent backup file. Instant Notification When a member joins they are sent an email with their new affiliate information, and also email the administrator ( you ) with user's details...Automatically! The time, date, and IP address of the new affiliate is recorded for you. Instant Advertising codes Automatically generates HTML and banner codes for each new affiliate with their personal I.D. number. Pages can be Customized to Your Program There are 3 HTML web pages. These pages may be edited to reflect your product or service. - affiliate.html - This page is where people will join your affiliate program from. - thankyou.html - This page congratulates your new affiliate and gives them their new affiliate details. These details are also e-mailed to the new affiliate and you the webmaster. - order.html - This page is an example of an order page for your product. You can customize

this ordering page to work with your current ordering system or simply ignore this page and use your current order page. Easy Installation. This script has only a very few files. Only a basic knowledge of HTML is required to set this up. Complete instructions are included, making installation a snap! EVERYTHING needed to create an affiliate program for your website right away! All for Only \$19.95

Some of the features of the Simple Affiliate are: ADMINISTRATION AREA: The administration section for Simple Affiliate has all the features you need to run an automated affiliate program. With a very easy to use interface, you will have no trouble getting the affiliate information you need quickly and easily. Here are some of the Administration Area features: Lets you approve sales/signups, or set it to automatically approve them The payment center lets you add a sale, view/edit/delete affiliate sales, pay affiliates, create and view archives and more! A simple to use "Manage Affiliates" section where you can view stats, view/edit/delete affiliates, view all affiliates, add affiliates, etc.. Allows you to view the stats on your entire affiliate program to let you see the progress it has made Send a mass mailing to all affiliates with fully personalized messages Simple Affiliate lets you customize all of the emails that go out for both first and second tier signups and commissions. You can also customize all header and footer html right from the admin A "Page" section which allows you to add new pages for your affiliates to promote with the click of a button Keep your affiliate program running fast with the "Clean Files" section which allows you to easily erase old data files that aren't being used Real time statistics Simple to setup, the admin is all browser based, NO TEXT FILES TO EDIT. AFFILIATE AREA: This is where it gets really good. We have designed it with features that no other affiliate program has. You see, most programmers are too "technical" to understand the marketing purpose of a program. We look at writing a script quite differently than the rest, and add marketing benefits that the others haven't thought of yet. A few features of the Affiliate Area are: No question marks in the affiliates referring URL (meaning they can be submitted to search engines!) Affiliates have unlimited amount of tracker IDs so they can track their advertisements!! (you will not find this anywhere else!) Real time statistics for your affiliates on everything The tracker IDs are also past when a sale is made, this means affiliates can track which ad gets the most sales! Hits to sales ratios for each tracker ad formatted in an easy to read graph! Affiliates can view stats by the day Simple Affiliate gives affiliates detailed sales reporting with the click of a button Shows the referring URLs and how many hits each got Affiliates can add tracker notes so they can be reminded which ad was for what Shows stats by month! Affiliate area runs off of a header and footer file which is editable in the

admin. Strangely enough, we could not find any other script that had this, this way your affiliate program will not look like everybody else's Affiliates can add a short code to the end of their referral URL and send traffic to different product pages They can change all of their payout info quickly and easily A link codes section which is completely editable by the admin and can be fully personalized If the admin desires, the affiliates can view their second tier and even send a mass personalized mail to them! MORE FEATURES: And it keeps getting better, here are some of the other great features of using the Simple Affiliate: Signup form has a header and footer files editable by you (fits in with YOUR website theme). Signup form can be referring URL protected if you wish! This script can integrate with any payment system you have... GUARANTEED! The whole script is completely customizable all from the browser It tracks by cookies and IP addresses giving you a stable means of tracking! Handles 1 or 2 tier programs easily You can pay out percentages of a sale, or a flat fee for all sales on 1 or 2 levels In the admin, you can pay one affiliate more than you pay the rest! Every affiliate is set up with the default payout, then you can change each affiliates individually if you want. Export features allow you to export to programs like QuickBooks or MS Money for automatic check writing Sophisticated data structure allows for affiliates to send tens of thousands of hits per month, every month and never become corrupt (this is extremely important!) With Simple Affiliate you can choose which affiliate gets the sale when a customer clicks on two affiliate links. You can have it to where the first affiliate that the customer ever clicked on gets the sale, or set it up to where the last affiliate that the customer clicked on gets the sale. The program is very simple to use for both the admin and affiliates. The Simple Affiliate is a Perl CGI script is installed on your own UNIX web host. Requirements: \* UNIX (or the equivalent) web hosting \* Sendmail Searches:simple affiliate scripthow to get 1000 afilaiates
