This Mikuni manual details methods of tuning Mikuni HSR 42 45 carbs to match after market parts that may be fitted. Includes clear diagrams and text to help you get the best from your machine. Tuning your carburetor after installing after market parts is essential for maintaining optimum performance. Regular maintenance of your carb will keep your machine running at its best. When re-tuning is required, it usually involves small iterations to the idle and/or main system. The following pages supply enough information to make such alterations relatively simple.
