That is the purpose of this Box & Ebook Cover Creator Package. This 3D Software Box & Ebook eCover Creator Package comes with 2 PhotoShop Action Scripts - one for an ebook cover and the other for a box cover like the ones shown above on this page. It also includes a PDF instruction manual on how to use the 2 PhotoShop Action Scripts to create the ecovers. The scripts will create those shadows and reflections to make your covers more realistic and professional. It's easy so long as you have Photoshop software (NOT included in this package) installed on your computer and you can follow the simple instructions as outlined in the step-by-step instruction manual. All illustrations in the instruction manual are in full color. As it is in Adobe PDF format, it's readable on both Windows and Mac computers. Each of these 4 covers shown here was constructed from scratch and was completed within 10 minutes! You can use whatever picture or photo of your own, or type in whatever text you wish, change the text color and font type or size... it's all up to your imagination and creativity! After completion, save the covers in JPEG or GIF formats for use in your eBay listings or in your web pages. Now you can easily make your own eBay listings stand out by creating and using your very own unique ebook covers!
