Advanced Submitter What exactly can Advanced Site Submitter do? Our website submission software for Windows makes it easy to submit (and then resubmit each month) your websites to 66 of the top search engines from your own PC. As easy as 1-2-3 1 - Click a button ... 2 - wait 10 seconds ... 3 - and youre done! Dont pay others to do what you can do for yourself! The software database engine constantly updates itself - for FREE! Rest assured your software submissions are always current! When you submit to these 66 top search engines, search results will show up in other engines. For instance, Google powers the Yahoo search engine. Search listings in Google will show up in Yahoo as well. Why pay \$299 to Yahoo when you can get listed in their directory by submitting to Google using the Advanced Site Submitter? Some people might want to submit their websites to the search engines by hand. Sure, you could do that - but why? Youve finally got on the information superhighway, why walk? How much is your time worth? Figure it out. If you took just 5 minutes to submit your site to each of the 66 top search engines addressed by the Advanced Site Submitter it would take over FIVE hours. And again, next month, and the month after. Make better use of your valuable time! It will take just a few moments with the Advanced Site Submitter, leaving your time free to create and update the vital content for your site. Nothing boosts your site traffic like fresh content.
