

# Super Fast Banner Rotator Script

[DOWNLOAD HERE](#)

SUPERFAST BANNER ROTATOR MYSQL BACKENDED BANNER ROTATION SYSTEM Not only is this the fastest banner rotator script known to mankind it also has cool new expiration concepts for selling ads. You can setup multiple accounts and each account holder can login with a username/password to check their impressions, clickthroughs and CTR's in realtime. The cool thing is you can set accounts to expire one of two ways. Accounts can be set to expire by number of impressions (when the account holder exceeds the set number of impressions their ad automatically expires). Accounts can also be set to expire by number of days (flat rate advertising). This offers you a dual marketing approach to selling your valuable banner space. We use this very same system to sell ads on our site and it works great. System load is virtually undetectable. All stats are in realtime. Admin panel allows you to browse all accounts and their individual statistics, view all banner ads at once, modify/delete accounts, and even check the overall impressions and clicks to your server.
