From: Dennis J. Cheesman Date: Tuesday, 9:42 AM RE: Unique Content + Traffic = Putting real cash in your account! Dear Fellow Internet Marketer, Frankly, I'll tell you that if you're trying to 'get started' in niche empire building, then this could be the most important letter you'll ever read. It could make the difference between a profit producing authority site and a few more years or getting nowhere... Lets face it, making money on the internet can be a little bit confusing and mucho frustrating! Theres no doubt that Google Adsense and Affiliate Marketing is a proven money maker, but getting unique content pages to put those ads on is probably the most difficult thing for any internet marketer to do. Frankly, good unique content is one of the few things you just cant fake. Let me ask you a question... What is the one thing Google loves more than money? UNIQUE CONTENT! The more content you supply them the more traffic and revenue they send you - POINT BLANK! Sure, there are lots of ebooks that will teach you all you need to know about marketing, and there are books on how to get content written but learning all that information and then trying to get content takes time a lot of it. I mean, don't get me wrong, these things are a necessity, but you need to be cranking out unique content to make it pay off. This is where my software comes along... Ive gotten a ton of requests from people who want to make money with adSense or affiliate programs, but just dont have the time or know how to write fresh content every day. So I got an idea.. that's when I decided to create this powerful software that... Builds Content-Rich, Powerhouse Authority Sites and Automatically Transforms Them Into Passive Incomes With Unlimited Potential... It took time, but I came up with a powerful software program that lets you use it to to accept unique articles from people, post them, and put google ads or any affiliate product you choose on every page. You can also use it to swap articles with other webmasters. It completely automates the process of exchanging articles with other webmasters. Think about itif you get 50 people submitting a unique article to you a day,

after 100 days you have 50,000 unique pages, with google ads or an affiliate product on each page Were Talking Serious Money Here! But wait, you say, why would people submit articles to your site for free? Well, its pretty simple; your site will be considered an authority site. People will start linking to your site automatically as a useful resource, so the terms of your site is that they have to submit a unique article to your site, and in return they get a one-way link from an authority niche site.
