One of the most valuable ways to use your hypnosis skills is to help people solve seemingly difficult problems. These can be problems of a personal nature, such as changing a destructive habit. Or situations such as difficult business negotiations. And the reason why this skill is so valuable to you is that people will be happy to reward you handsomely for helping them. There's a saying. "You can have everything in life you want, if you will just help other people get what they want." One of the best ways to help people is to use the little understood power of covert or conversational hypnosis. Master hypnotist Igor Ledochowski is an acknowledged expert in this field. For many years he was very "in demand" as a consultant to major corporations and other high-level organizations. 80 pages Tags: practitioners, education, united states, business
