"Unleash The "Tycoon Mindset" And Create Businesses Overnight That Rake In The Cash Instantly, Even If You're Kicking Back On Your Favorite Beach" "Hard Core Tactics And Strategies To Unleash The Real Money-Making Power Of The Internet" Dear Friend, If you want to create a massive cash flow for yourself or your business, this is going to be the most important letter you'll ever read! Here's why: This letter is about the book, "How To Become A Global Internet Tycoon", the only book on the Internet that shows you in quick and easy steps how to set up instant businesses that can cause a cash flow coming to you that's beyond your wildest dreams! These tactics and strategies can be put to use even if you're sitting on a beach in the middle of nowhere. As long as there is a way for you to connect to the net, you can create multiple cash producing sites one after the other. Internet Profits Are Exploding!! My name is Allen Says and I've been making a killing on the Internet for over 7 years and it's really only due to a few simple concepts. I've laid those simple concepts down in my new book, and, once you "get it", nothing can stop you from doing exactly what I've done. You may actually even be better at it than me. I'm not nearly as active as I should be yet I've still managed to make more per day than most make in 6 months. What I tell you is not like the huge \$200 courses that do nothing but bog you down and add to your confusion. You can take the ideas and plans I reveal and put them into action immediately. You could be putting these ideas to use within minutes of reading "How To Become A Global Internet Tycoon". Here's just some of the cash creating concepts you'll discover... The secret "Mindset" you must have to acquire the power to make millions of dollars, on the Internet or anywhere else. This is the one truth you'll never hear about from the "gurus". The incredible story that reveals the one true secret to all powerful marketing. Learn this one truth and never worry about money again. The ultimate seductive strategy for getting "inside" a person's mind, and how to use it to sell almost anything on earth. The ultimate "hidden selling" tactic. A simple domain and "one page site" system that can turn you into a super affiliate in as many different programs as you want to profit from. Not one in 50,000 affiliates understand or use this

incredibly powerful method. The Automatic Money Strategy --- use this method to create two products out of one, double your profits and cause others to promote you worldwide automatically. One of the Tycoon's most effective tactics for wealth building. An "incredibly obvious" but almost unknown way to sell 100,000 ebooks a year on autopilot. I can count the people who have discovered the power of this method on one hand. What "certain type" of words in your ads and headlines can get you clicked on over all your competitors. (Your competitors won't understand what happened and won't be able to figure it out either.) A simple "hot report" concept that can turn into a \$5,000, \$10,000 or \$20,000 windfall every time you click the send button to mail your list. Your clients will "want" your sales letters. How a common bad trait in virtually everyone on earth can make you incredibly wealthy. Make your product take advantage of this trait and you've got it made. How to use your prospects own mind to "sell himself" on your product! (Incredibly powerful strategy used by the "real" masters of selling, forget about "hypnotizing" your prospect and set him "on fire" instead.) How to cut out "testing time" and go for the gold immediately. I've included a bonus with your order that will turn you into an ace copywriter in minutes instead of years. A nasty little secret to "cross-link & multiply" your way to wealth. (only used by the bravest, or possibly craziest, Internet marketers) The killer concept that has allowed me to pull in hundreds of thousands of dollars from the Internet over the last 7 years. This one Tycoon tool will hold you up even when you make the dumbest of mistakes. It's that powerful, in fact, if you don't use this strategy in everything you do you might as well forget about making money on the Internet. Use it and you can make money with anything. Are you trying to sell a package of ebooks right now? If so, discover the one mistake you are probably making that's holding you back from making the real money. Fix this and you'll turn that "package" into mini empire. How to use other peoples resources to gain power, recognition and wealth. (Or, how to go from unknown to known worldwide overnight.) The Hero Strategy --- How to create wealth out of nothing but a domain and few spare minutes a day. Operate this while sitting on the beach and make more per month than 99 of the population make in six. Simple strategy to get the maximum number of people to see your offer. At the same time, this technique makes web site owners 100 times more likely to promote "your" offer. What does "Boy Eats Own Head" and The National Enquirer have to do with you making money? (The answer to this will determine exactly how much money you will be able to make.) How to control a "multi-million dollar empire" without investing one cent in products. How others are taking advantage of the incredible power the Internet gives us. (Literally be at the head of a business with

multi-million dollar potential in just days) A list of my personally tested words that turn your ads into magnetic powerhouses that people "will" read. Certain words have a deep emotional impact that captures the total attention of everyone that reads them. The most vital part of any sales letter, mess this up and your letter or site is dead in the water. Get it right and you could screw up everything else and still make a fortune. The secret of writing with power and impact I learned from old success books that can "turn people on" in more ways than one. (Master this and you'll never have to worry about money again.) 4 unique examples of people making it big on the Internet with unusual products and strategies. You're sure to get an idea or two out of these. How to create hot products one after another. Where to dig up products others never think of looking and get the rights to market them on the Internet. How to put together the "only" kind of web sites that pulls in the sales. (This also happens to be the easiest and quickest kind of site to create.) How to kick off any new business on the Internet and get it on autopilot immediately. A simple type of site you can put up in just a few hours and what to add to it that can create a constant stream of checks for you. This can be done with an unlimited number of subjects covering every interest in the world. The strange but true secret of getting people to take action immediately. Something you can "give" your reader in your sales letter that will instantly make them feel confident about doing business with you. Why you never have to create a product if you don't want to. A simple strategy to create an empire out of products and services you never see or touch. Why you don't need credibility to make money. A unique way to get around the credibility problem and use other peoples credibility to rake in the cash. And that's just some of it, "How To Become A Global Internet Tycoon" is a book that never really ends. I will be adding new ideas, plans and discoveries to it as I get them.
