URL Clamp makes reducing long URLs or hiding affiliate links as easy as clicking your mouse! Plus, thanks to its simple user interface anyone even someone with no Internet experience at all can use it! Heres How This Powerful Software Program Works: When you're ready to shorten a long URL, simply double-click the URL Clamp icon on your desktop, follow the few, easy steps and you will have a new shortened URL in no time! Then all your friends and customers have to do is click on the short link to be automatically forwarded to the longer one. You can use these new shortened links in emails, newsletters, ezines, ebooks, in forum postings and anywhere else a link can be posted. And the URL Clamp program works the same easy way when you need to hide affiliate links, too! In fact, theres never been a program this easy-to-use and this inexpensive that literally takes you by the hand and leads you through the short, simple steps of shortening or hiding links!
