Public Domain Prowler Master Resell Rights Discover Below the Breakthrough Software Program That Enables You to Take Full Advantage of Public Domain Information & Send Your Internet Business Profits Skyrocketing! Now you can get all the tools you need to create profitable public domain products all on one convenient, inexpensive software program! Just take a look at the Public Domain Prowlers many features:

- * **Manage Projects** Users can completely manage all of their on-going public domain projects from one central, easy-to-use command post. They can Create New Projects, Create a New Project Group; Add Projects to the Chosen Group; Open Existing Projects and much more! When opening existing projects, users can choose which group they want to open from a drop-down menu. After a group is chosen and the user clicks "View" that Groups' Projects are displayed in an easy-to-read table. Each Project has an Edit and Delete link with an Alert Box that verifies Deletion. When a user clicks Edit, they see a page where they can upload individual files as well as entire folders. There is also a menu that displays all of the uploaded files. Also available within this feature is an access page to TheLostFiles TheLostFiles is the leading provider of public domain content in usable (and sellable) format to entrepreneurs worldwide. TheLostFiles offers its members 3 "ready to sell" public domain books every month; a certificate signed by an attorney for each work showing that it lies in the public domain; a professionally written sales letter for each product; graphics for each product; access to a private marketing center; access to 48 training videos; and much more!
- * **Project Gutenberg** This access tab provides you with one-click access to Project Gutenberg a volunteer, digital library that contains over 17,000 free ebooks. Founded in 1971, it is the oldest digital library. Most of its items are the full texts of public domain books. The project tries to make the items in its collection as free as possible, in long-lasting, open formats that can be used on almost any computer.
- * **Research** Displays both leading public domain research websites as well as those few people know about. Use these links to find the Internets next big seller! No need to visit, research and bookmark all these sites. We've already done it for you!
- * **Derivative Works** Explains the various derivative works that can be created from public domain works and provides you with the details you need to create those works! Also, features a comprehensive

list of Tools and Vendors that offer services to users of public domain information! * Legal Information Includes a table listing all of the public domain restrictions and regulations you need to be aware of for both the United States and Abroad and provides links to various companies and individuals that deal with the legal aspects of working with public domain information. * eCommerce Includes hosting and domain name registration recommendations as well as shopping cart and affiliate management software and service recommendations! * Salespage Creator Generates cash-producing sales letters with a few clicks of the mouse. This feature alone will save you thousands of dollars in copywriting fees! Tags: mrr
