

Who Else Wants A Full Automated Split Pay System

[DOWNLOAD HERE](#)

who else wants a full automated split pay system. Pay Me INSTANTLY, Instead of Monthly Or Even Weekly. And I'll Put In 100 Effort To Promote Your Program!" If you want to double, triple or even quadruple your sales and the number of Affiliates promoting your Product or service... Then you have to feed their WIIFM. "What's In It for Me!" It's no longer good enough to have the best widget in your Niche Market. It's not good enough to pay 25 commission and make your Affiliates wait until the 15th of the following month to receive payment. If you intend attracting Super Affiliates and or even getting a prospective JV Partner to look at promoting your product or service you have to GIVE them a reason why they should bother. And that reason can be summed up in two simple words that will attract Super Affiliates and JV Partners to your product like bee's to honey. IMMEDIATE GRATIFICATION! Of course the quality of your product and the uniqueness and demand for your widget also have to measure up... BUT, if you are only offering peanuts then you'll only get monkeys and NOT the organ grinder! I have to blunt and say that I always look at what I am being offered in commissions first. Then I look at the product and last of all I look at whether it fits in with what I am currently marketing to my list. It all boils down to WIIFM, the support offered, the integrity of the seller and whether the product is in hot demand. Split Pay Pro handles the immediate WIIFM as in the Immediate Gratification of getting paid first but that's not all. Continue reading to find out just what Split Pay Pro has to offer you. Fully Automates the selling of your Product(s) and or Service(s). An Affiliate Program is a must have tool in order to capitalize on the Power Of Duplication. Unless you have an army of Affiliates promoting your Products you will never have enough Free Time to devote to Living a Lifestyle instead of working to just Manage a Lifestyle. As J. Paul Getty, the Master of Duplication once said... "I'd rather be paid 1 of 100 peoples efforts than 100 of my own." This is so very true of creating any Income Online. If your life depended on only you doing everything and you were sick for 7 days, your source or sources of income would dry up. Where as if 20 people of the 100 got sick and could not perform... ... Then at least you would still receive an income from the other 80 healthy people. Fully Automates the Split Payment process to Your JV Partners and Affiliates on a First Paid Basis. The most amazing thing will happen for you, just like it did for us! We saw an

immediate 352.65 increase in sales and a 38 increase in active Affiliates, as soon we introduced First Paid to our Affiliates. Why, you ask? Immediate gratification stirs the blood and gets us promoting even more so we can earn even more. As a very good friend of mine once said to me... "There's nothing like immediate gratification for selling a product. I'd rather see all those "You Have Money Waiting" emails. Than to check an Affiliate Program and see I have to wait another 3 weeks for \$1,500 dollars." "Now don't get me wrong. Nothing at all wrong in promoting those other Affiliate programs that pay you on a weekly or monthly basis." "I can spend that money just as easily, ... But I do love being able to spend what I make now as well." ...Mike Filsaime Fully Automates the setting up of an Affiliate Account. Free, Pro or JV Partner. Split Pay Pro allows you to have upto three different Affiliate Levels. Free, Pro and JV Partner. Just as easily you might decide that you only want to have a JV Partner Membership level. All you do there is just don't create the Free or Pro Membership registration page. You can also decide whether the joining member has to purchase your product package before being able to register as a JV Partner to earn the higher commission payout. Split Pay Pro also allows you to set seperate commission payouts for your three levels of memberships. For instance you could set the Free Member to 15, the Pro Member to 45 and the JV Partner to 65. You set whatever percentage you want to payout. Fully Automates the setting up of Your Single Product Payment Button. Once you have entered your product information with the selling price and the percentage payouts, the script Automatically Generates the Payment Buttons. One for your Affiliate First with the correct amount payable and then Automatically Generates the Payment Button for you as Admin to receive the balance payable. Fully Automates the setting up of Your Single Product Payment Button with a Payment Plan Option. This option is done exactly as above with the addition that you can now offer a Payment Plan. For instance if your product was selling for \$197.00 you could offer a payment plan over 3 months to make it more accessible to some folks on a budget. You can set the Payment Options for anything from 2 to 12 installments. Fully Automates the setting up of Your Membership Site with three Subscription Options. Why should you be limited to offering a Split Payment to your Affiliates on Single Products. Now you can harness the awesome power of offering immediate gratification to your Affiliates for your Membership Site. The Subscription Options can be set up for monthly subscriptions, quarterly subscriptions and even bi-yearly subscriptions, [every 6 months], for access. The unique benefit of this script is that it allows you to set up a monthly, quarterly and bi-yearly subscription all at the same time for access. The way you would use this awesome feature is to

offer a discounted price for the quarterly or bi-yearly subscription for paying in advance. For instance you could have your monthly set as \$7.00, the quarterly set as \$18.90 and the bi-yearly as \$33.60. [bi-yearly is every 6 months.] Now to break those down to a monthly comparison the quarterly works out to be a savings of 10 at \$6.30 per month and the bi-yearly works out to be a savings of 20 at \$5.60 per month. Why would you offer these options? Increases immediate income and spreads your expected income over various stages of the year and it also allows your members an opportunity to save on their subscription fee's. A totally win-win situation for all. Fully Automates the recording of all Sales Transactions. Most affiliate programs make it very hard to view past sales for any given time period and see what is the most popular product being purchased. This is vital information in order to monetize your customers and offer them related products either in creating them or through your own affiliate links. All sales are immediately recorded from the IPN supplied when the successful sale is processed through Paypal. In your Admin area you can view all sales at once or search for a single sale by date or customer email. Side note:=== The IPN's will also send you emails for refunds and possible hack attacks. ===end side note. Fully Automates the delivery of the Download Link after purchase. There is nothing more frustrating for you as the owner and more so as a customer... Having to wait for Admin approval of a download. Many many refund requests and charge backs are caused by owners simply not offering immediate download after a purchase. Worse still is getting a message saying... "Thank you for your purchase. You will be emailed as soon as Admin has verified your payment. This may take upto 24-48hrs." That is business suicide and will turn more potential customers away before they even get to your site. As your customers will tell others of the slack service. Split Pay Pro ensures immediate access after a successful sale only. That means as long as the sale was made through Paypal and not a hack attack on your scripts. Access will be granted immediately. Now you can decide for yourself whether you give them access through an unprotected download page or get your customers to set up a secure Download Manager area. The advantage of getting your customers to create a Secure Download Area is they can also view their past order history and request access to a previous purchase if they should need it. And just as importantly you can control who has access to download your products, thus stopping un-authorized access to a members area. Benefits at a Glance. * The Split Pay Pro System is a Fully Automated Affiliate Program. Now you can have a Multi-Member Affiliate program written in Php and uses a Mysql database. You could name the membership levels anything you like. By default we have named

them: Free, Pro and Platinum. Or you could use the script for JV Partners Only. Or you could offer Pro and Jv Partners. The choice is yours. The Split Pay Pro System has three Commission Payment Options. You have full control over what percentage you set your commission rates for each Membership Level. The scripts do all the math automatically for you and generates the order/payment buttons with the correct amount to be paid. YES, the Split Pay is automatically calculated to pay each Affiliate according to their membership levels and the balance is also automatically calculated to pay You as the Admin. Just set the percentage and forget it. You have total peace of mind knowing that you don't have to stress out working the percentages and updating pages manually. The Split Pay Pro System is the FIRST to cater for Membership Sites. As an owner of a Membership Site you now have the latest technology running your Fully Automated Affiliate Program with Three Commission Payment Options. Now you can offer Three Subscription Options and have all the math, percentages, and subscription buttons generated completely on Auto Pilot. # BUT Wait It Gets Even Better! # The Split Pay Pro System has a built in Payment Plan Option. It's one thing to make sure your Affiliates get paid First... BUT what about your customers and potential customers who are on tighter budgets and just can not afford the \$297.00 in one lump payment. The good news is you can now start promoting higher ticket items and services to your existing and potential customers by offering them a Payment Plan Option, as well as the normal full price option. Just imagine the increased sales you will get by offering a Payment Plan. Take a look at the following scenario: Your product package is \$297.00. You set up your copy of the Split Pay Pro System for the full price and with a 3 installment payment option. Customer A, elects to pay the full price, so your JV Partner gets paid \$148.50 first and then you get paid the balance of \$148.50. Customer B, decides that the Payment Option suits his budget better and he doesn't want to miss out on your extreme widget. Your customer now sets up a subscription with your JV Partner, so he gets paid \$49.50 immediately and will receive another \$49.50 next month and the month after. To complete the Payment Option payments your customer also sets up a subscription with you. Now you get paid \$49.50 immediately and will receive another \$49.50 next month and the month after. # The subscriptions automatically cancel after the 3 payments have been made. [sooner if your client cancels them.] Are you consciously doing the budgeting for your customers? Wrong thinking. If you do the budgeting for your customers you will never enjoy the sheer excitement of getting payments for \$497, \$997 and yes even \$1,997.00 dollar packages. Now you can promote any priced package you own without the worry as you can set the Payment Plan Options

from as low as two installments upto twelve. Let's have a quick look at a package being sold for \$1,997.00 with a 6 installment Payment Option. Customer B would now be setting up payments for the next 6 months to you and your JV Partner. Starting immediately with a payment of \$166.42 to both of you. [Infact you can set the number to anything you like. from 2 to ???] Let me ask you this one question. How many more customers do you think could now afford your package of \$1,997.00 knowing they could pay it off... ...At \$332.84 a month over 6 installments? Editor Note: The 6 installments is actually 6 payments. First One is immediate and the other 5 are set up as monthly subscriptions.---End Editor Note. # The Split Pay Pro System comes with a Seperate Download Guardian System. I know I should have built this into The Split Pay Pro System however I have been testing this script for over 12 months now and I haven't had any download links shared and the number of attempts by members to share their login to protected products has almost disappeared. So I am including it with The Split Pay Pro System as a stand alone product so you can start using it on any domain you own. Download Guardian not only secures your members area, limits the available number of downloads to a pre-set number. It does not reveal the download url. And it gets better. Most download scripts of this nature work on the next number being the download url, so it makes it really easy to get your products. If you received whatever.com/d/pr.php?file=1. Then by changing the number to ?file=2 I've gotten your product. And I'll keep going until there are no more numbers allocated. Now some scripts have been written to get around this by asking the user to make up a short file name. Again a security hazard as most people will just use the initials or a shortened title of the product name. Not hard to get your products after a little careful reading. So what makes Download Guardian such a tough nut to crack. A special algorithm that generates all file extensions randomly. Plus a little php wizardy that makes everyones download url totally unique to them and their computer. No matter what product they have purchased. Now that you just can not do with .html pages. As an extra deterrent, if someone wants more than the allocated 2 downloads they can pay for them. Are they likely to share their member login details knowing they only get 2 downloads? I think not. Last but not least the Download Guardian System also has: 1. A Members Area 2. Searchable Members Database 3. History of all products purchased 4. When it was purchased 5. When it was last downloaded 6. What IP was used to download 7. Add an Unlimited number of products to the database 8. Create an Unlimited number of download url's 9. The ability to offer a free product to all members # The ability to add a free product to a single account # The ability to offer a paid product FREE to all members 12. The ability to

add a paid product FREE to a single account 13. Admin Mailer so you can send out email to all members 14. Insert the download links in emails if you need to 15. Add the download code into your Paypal or Stormpay IPN or any other payment processor. So your customers can get immediate access. 16. Admin can suspend a Members Access 17. Admin can delete a Members Account 18. Two Membership Levels - Free and Paid Everyone who registers are Free Members. 19. You could charge an Upgrade fee as a once only or monthly subscription and offer everyone that upgrades a Free Monthly product. Just a thought. lol OK, What's it all going to cost me to get my hands on the "Split Pay Pro System" with the "Download Guardian System"? Remember when I said you can Pay Your Affiliates First. Well you are only one click away from achieving that goal! We should be releasing the "Split Pay Pro System" for \$ based on all the other High Quality Software Solutions available. And that's without the "Download Guardian System" The Download Guardian we will be releasing shortly for \$ as a standalone product. However Diane and I have decided that we want as many people as possible to be able to afford to Cash In On Creating Hungry Affiliates By Paying Them First and having secure Download Area's. 12. The ability to add a paid product FREE to a single account 13. Admin Mailer so you can send out email to all members 14. Insert the download links in emails if you need to 15. Add the download code into your Paypal or Stormpay IPN or any other payment processor. So your customers can get immediate access. 16. Admin can suspend a Members Access 17.
