Master Resale Rights (MRR) to "Blog Link Generator - Thousands Of Links Back To Your Web Site From Other Peoples Blogs" I realized there had to be a better way I had to automate this process if I was ever going to make it pay off. My requirements: I needed something that would automatically: 1. Take my keywords or keywords from Google Sandbox or Overture. 2. Find blogs with those keywords. 3. Post a comment to those blogs that includes the keyword. 4. Include a link back to my site in the post. 5. Increase the heck out of my site traffic. So, in desperation, I called a software developer friend of mine. There had to be a better way. And there was! (And no, I will not divulge his name. I've got him working on a new project, and he's so good, he'd be stolen instantly.) After extensive research, he figured out what needed to happen and he went to work. He developed the tool Blog Link Generator. It finds relevant keywords, finds the blogs, and then posts a personal comment right from me! Each post contains links back to your site, so when the spiders find the posts they love so, they also find YOUR SITE! The result? Your site gets listed WAY UP HIGH in the search engines without you having to write a word of content! But don't take my word for it, here's what customers from all over the country are saying about this unique Blog Link Generator: Melissa Pierce of Tampa, Florida says: INCREDIBLE!
