Discover the Secrets to the Management of Children! Now you can use a practical, step-by-step guide to achieve the parenting you always dreamed of --- 100 Guaranteed Dear Reader, All parents want to give their children the best life possible. Without the right tools and information, it could take you years and cost you a small fortune to discover the secrets to the management of children. Instead of spending a fortune on so-called experts or knocking yourself out with the old trial and error method, there is an easier way to be the parent you always dreamed of. Now theres good news I wont deny that there are a ton of books out there on parenting. Unfortunately the problem with most books on the subject of parenting is that they are either filled with plenty of promises and no solid techniques and strategies to back up those promises or they contain only one or two pieces of useful information and not a comprehensive look at everything you need to know to succeed in the management of children A Guide to the Management of Children breaks the mold of all the other parenting books and manuals you have heard and read about. It presents solid, proven steps to help you learn how to be the parent youve always wanted. Sounds too good to be true? Its not and I can prove it with A Guide to the Management of Children! But, first a word of introduction. My name is _____. A few years ago I found myself in a situation not too different from your own. Like almost everyone else, I longed to be able to provide my children with the best. As a new parent, I had no idea where to start! None of the books I had read on parenting had been able to solve my problem. Some of them were so mired down in fancy words and technicalities that it was a miracle I ever got past the first chapter! Others might have passed on a helpful hint or two, but did not solve my problems. Thats when it hit me! If I couldnt find a comprehensive guide on parenting, then why not create my own? I was tired of flipping back and forth through tons of books for the few bits of information that could help me; but I reasoned that if I put all those little tidbits of info together then I might actually be able to begin understanding the secrets to the management of children. The next morning I furiously began to read through all of the parenting books that I had purchased over the past three years and take down the pertinent notes. I didnt stop there either. I swallowed my pride and enlisted the help of people that I knew who had been personally successful in parenting. It took awhile to sort through all of the information I had

gathered and compile the notes I received from the experts I consulted, but when I was finished I sat back and was completely stunned. Right here in front of me was the information that I had been seeking all along. From the notes I had taken from several articles on the subject of parenting, as well as my own experiments, I had comprised a comprehensive compendium on the subject of the management of children. I sat back in stunned amazement! It was all there! The Dietetics of Infancy Nursing Weaning Sleep Children and Exercise Ailment Remedies Common Childhood Diseases Then I decided to try an experiment and put all of my hard work to the test. The next morning I awoke with new determination. This time I would not fail! Suddenly, I was excited! I absolutely could not believe the difference. Suddenly it was all so clear! I could easily implement proven strategies without having to wade through a mountain of fancy words and difficult to understand terms. What happened next was nothing short of amazing! These strategies not only worked, but the results were completely astonishing. As my success with parenting grew, I started to feel guilty. I knew there were a lot more people out there who wanted the same solutions I had found. Somehow, it just didnt seem right to keep it to myself. One night as I made some changes to my book, I wondered how many other people might have the same problem? After all, if I couldnt find a decent comprehensive parenting manual, what were the chances anyone else could? Given the tremendous success I had encountered using my manual; I was sure that other people could take the same easy to read and understands strategies and achieve success as well. Right now youre probably thinking, Yeah, right. Theres a ton of parenting books out there. What makes you and your book so different? I wont deny for a minute that there are some good parenting books out there-after all Ive read most of them, if not all of them. The difference, however; is that my book blows all the others out of the water because it doesnt just focus on one area of the game. You get everything you need to understand how to parent successfully. Nothing, absolutely nothing, is left out. All the fundamentals are there. And thats just a small taste of what you will get when you order the A Guide to the Management of Children Absolutely everything anyone would ever need to learn how to successfully parent is contained within this impressive work. Okay, Im sold, but whats this incredible resource going to cost me? When I first began to think about putting my manual on the market, my first thought was to create a seminar where people could actually get the benefits in a hands-on way. I know not everyone loves to read, so that seemed to be a great solution. But, I quickly realized how time consuming that would be for everyone so instead, I decided I wanted as many people as possible to reap the benefits of this fabulous manual. ,

Im willing to slash the cost just so you can take advantage of the incredible information within A Guide to the Management of Children.. So, because of my hectic schedule, you can now take advantage of A Guide to the Management of Children for only \$_____.
