

# Php & Mysql Content Management System

[DOWNLOAD HERE](#)

This hot script installs in just minutes on any Windows, UNIX, Linux, or BSD based web server and setup is made super easy through a complete web-based installation system and an included installation guide. Once this software is installed changes to the content of your website is made in complete real-time through an easy to use web-based administration control panel. The control panel allows you to tune every aspect of your web sites visual appearance and layout and also provides an easy to use content authoring & management approach unique to this script. The visual appearance, layout properties, and navigation scheme of the web site can be instantly changed at a global level selecting from installed professional looking skins and navigation bars which will automatically reformat the look of your content on the fly while leaving your database driven content completely untouched. Users of this script will find that authoring and editing content for the web site is a snap by making use of the enhanced authoring interface which includes support for both WYSIWYG editors and plain text/HTML markup languages. Uploading and managing your files is also simple using the included file management utility allowing you to upload your images, documents and other files directly from your computers hard disk to the web server where it will become available for use in your websites content. This script is a must have for webmasters who are looking to make completely managing their website a breeze without a lot of programming knowledge. Comes with MASTER Resale Rights!
