How an Adwords campaign that costs \$4.22 makes me \$414.76 every month. And how I replicate it in just 2 minutes. CPC = \$0.02, CTR = 64.06 Total Cost = \$4.22, Profits = \$ 410.54 Is this even possible? You bet it is. Here's proof: Screenshots of just one of the "Two Minute Profits" Campaigns PS: The blacked out areas will be revealed in the "Two Minute Profits" Report. From the Desk Of: Alok Jain Dear Friend, Now that you have seen the proof and I have your attention, let me ask you one quick question - have you ever seen any Guru produce stats like these on their sales pages? Do you think the Internet Marketing hot shots even know about the existence of 2 cent keywords and 60 CTR? The answer is No - simply because they do not even know about the technique that I am going to reveal in my "Two Minute Profits" report. You see, I bumped into this technique because of an innocent human error on my part. I am not going to boast and tell you that I invented this technique using my super human brain. No I didn't. Way back in 2003, I was exactly where you are right now. I was trying hard even to make a single cent online. I wasted precious dollars on ebooks promising to make me an online millionaire. But I got no where. Not until one day, when I was creating an Adwords campaign for a CJ (Commission Junction) merchant and I made an innocent mistake. A mistake which made me my first \$50 on the Internet. :) Next day, while going through my Adwords stats, I realized what had happened. I had discovered something truly amazing. A little bit of research showed that no one else was using this technique (no longer a mistake). Absolutely no one. I had a vast market to capitalize on. And rest, as they say, is history. I replicated the technique over and over again and I have been doing so for the last 4 years. And each time I create a new campaign, using what I like to call the "Two Minute Profits" system, I add to my stable another source of steady profits. So why am I revealing this technique to you? Well, for one thing, I am tired of seeing endless "good for nothing" ebooks hitting the market and fooling innocent newbies. I have been

there and I know how it feels to shell out \$47 or \$97 for an ebook and then see nothing in return.

Secondly, the market for the "Two Minute Profits" system is so large that any number of people can use it without affecting others in the game. I admit that when I discovered this amazing technique, I was hoping that no one else gets to know about it. But over time, I have realized that there is room for everyone. And I genuinely want you to make the most of this technique. For this reason, I have priced my report under \$10. More on that in a bit. The "Two Minute Profits" Report talks about just this one technique. Written in a concise, to the point manner the report is your ticket to make steady profits online. I am not the kinds to beat around the bush and this reflects in my report. If I wanted to, I could have made this same report into a 100 page ebook. But I know time is valuable to both of us - hence the "no fluff, all matter" report. And yes, before I forget, I wanted to show you a few more screenshots to clear any doubts in your mind.

These are screenshots of the same campaign for another month. Just to show you that this is not a one time wonder. PS: The blacked out areas will be revealed in the "Two Minute Profits" Report. That's another \$372.98 in pure profits from a "Two Minute Profits" campaign. Imagine the potential of this system - this can be just what you have been waiting for. Let's glance over a few of the features of the "Two Minute Profits" system: * The system is almost risk free. You are not required to spend 100s of dollars on Adwords.
