"Here's How You Can Instantly Gain an Almost Unstoppable Edge On Your Competition, Increase Your Sales Conversions, and Build Your Profit Margin to Massive Proportions with This Incredibly Powerful Secret Tool" In Less Than 60 Minutes From Now You Can Be Creating Your Own Money-Making Software without Knowing a Single Thing About Writing Code or Without Having to Hire One of Those Expensive Programmers. From: Louis F. Burlison Thursday, 2:33 p.m. Daytona Beach, Florida Dear Fellow Marketers, It's no secret to anyone that you can rake in incredible profits selling software. I'm talking millions... and perhaps even billions. Obviously not everyone is capable of creating windfalls of this magnitude but you get the picture. And, of course, not everyone has the technical skill and knowledge to create software. The development costs are staggeringly high... as in hundreds of thousands of dollars for some software applications. Not to mention the time it takes to write the program. Who has that kind of time, money, or knowledge? NOT MANY... Imagine, though, if you could just skip all the rigamarole that comes with research, development, programming, packaging, etc. - and just get down to making software! Would that be a riot? As utterly crazy as it sounds it's not impossible... in fact, it's down right easy with my new program called... "Software Maker Pro." "Imagine Being Able To AUTOMATICALLY Create Professional Looking Profit-Pulling Software Applications In Just 9 Incredibly Simple Steps... all in About 30-60 Minutes!" What if you could have a professional software designer on retainer for you 24 hours a day 7 days a week that could create software applications whenever you wanted all for just a one time low payment? Imagine the money you could save or better yet imagine the potential profits you could bring in by creating and selling your own software! Sound like a pipe dream?... Well its NOT. And in a minute Ill show you exactly how you can get this amazing software generating tool for your own use. Do you have thousands of dollars just lying around to hire a programmer to write code for your next software idea? I would venture to say probably not. Do you have the time to learn programming language and write the code yourself? Maybe if you dont mind waiting ten years before youll be any good at it. With This Mind-Blowing Marketing Tool You Could Be Saying Good-bye to Failure FOREVER! Now imagine this Youve just come up with an idea for a software application that could significantly help solve a nagging

problem in your niche. What do you do next? Do you just sit there wishing you could find someone to design the software for you, do you wallow in self pity because you know you are about to miss the profit boat again simply because you dont have the resources to make your idea a reality or do you open your software-generating program, put in the recipe and whip out that new software within the hour!

Personally, I prefer the latter. Its already a proven fact that people not only love software, they WILL pay for it. Most folks are lazy (and practically EVERYONE is pressed for time) and if you can provide a legitimate alternative to work theyll jump all over it. Now Theres An Affordable Way to Create Your Own Software Without Spending a Fortune! Why should only a select few have the chance to make their own software? Everyone should have a fair chance to create and sell their own software without going into eternal debt or maxing out their credit cards. Thanks to this exciting design in software technology, you can make practically all the software you want instantly... at the push of a button. You may never have to waste your time or money again. This powerful new software will generate as many applications as you want you are only limited by your imagination. New to Internet Marketing? That fine too! Because Software Maker Pro is designed so even the newest of marketers can use it without difficulty. There are no scripts or codes that you have to enter and figure out on your own. Plus, weve included an easy-to-understand quick start guide that will show you exactly how to get the most out of your software maker and maximize your income at the same time! Youll truly be amazed at all the things this one piece of software can do. Here Are Just A Few of the Virtually Countless Ways You Can Benefit From Using Software Maker Pro * Unlimited Software Applications at the Push of a Button If you hire a programmer to design your software you get one application period. Your design costs are virtually zero (you pay for the software creator one time and your done) and you can create unlimited applications all with just a few clicks of the mouse. * Save Time and Money Thanks to Software Maker Pro, youll no longer have to spend a huge amount of your valuable time creating products. With the hours youll save you can spend more time on the things you enjoy most. Plus, youll have more time to focus on the marketing aspect of your business and not the product development phase. * Potentially Explode Your Sales and Income With the ability to

create unlimited software applications there's virtually no limit to what this can do to your sales and profit margin. Whether you create software to sell or software to give away you can create almost an unlimited stream of potential profit generating applications. * No Complicated Scripts or Programming Required

Just pop in a recipe (we'll show you exactly how in the quick start guide), fill out the required information and with the click of your mouse you'll have a ready-to-go software application that is ALL yours. You've seen it before... people raking in fist-fuls of profit from all types of software... headline creators, sales letter generators, web page creators... the list goes on and on. The concept is really simple... Find a problem... make a software application that makes it easy to deal with... and you've got an instant recipe for success. You could be one idea away from becoming the next software tycoon! Come on... Who wouldn't get excited about that!? Now you no longer have to fork out hundreds or possibly even thousands for an expensive programmer and wait weeks or even months to get your software to market... (assuming all the bugs have been detected and worked out). This software lets you get the same result but with your bank account still intact!... and your product ready to market in practically no time flat. Just fill in some blanks, put in a "recipe" and answer some questions... then with a few clicks of the mouse you're done. Your software is ready to roll... Simply test it out and then hit the market! With "Software Maker Pro" you can have your very own software application completed and ready to be taking orders on it all in the same day... and that's if you're slow! * Instantly Create Profit-Pulling Software Applications For Practically ANY Market! - No matter what your market is, you can now use "Software Maker Pro" to automatically create professional software, without spending thousands. * You WILL have your first Software created in only a few minutes! - All it takes is a few short minutes to fill in the blanks, load a recipe, click the mouse a few times and your software will be complete. * "Software Maker Pro" couldn't be easier to use! - This software is so simple to use. Even my 11 year old son was able to use it (now that's really saying something). * Build your email list to gargantuan proportions by creating and GIVING AWAY viral software applications ! - "Software Maker Pro" is the perfect tool to create lead-generating viral software tools. This strategy can be used in almost unlimited markets and you can even get a tax deduction by "giving away" promotional items. * Free recipes included! - I'll also give you a starter pack of "recipes" to help get you started with your first software program! "Software Maker Pro" is perfect for anyone who wants to sell software but doesn't have the time

and money to invest in developers and programmers. To hire a good professional software developer and programmer can cost anything up to \$200,000 per product! So I could easily be charging \$497 for this software, and you'd be getting a tremendous bargain... but I'm not going to be charging anywhere near this much. And here's the reason why: I've been in your position and I know how hard it is. The sole reason I created this software was so that I could help people like you to create professional software applications quickly and easily and without having to spend hundreds or thousands of dollars. This is not some cheap piece of software. In fact... version 1.0 (that's the current version) cost \$14,195 to develop and the upgraded version (currently being developed) could be priced at around \$1,000 once it is released. So to offer this software for \$497 would be denying the reason for me creating it in the first place. I have therefore decided to offer it to you for the AMAZINGLY low price of just \$197. But WAIT!... I'm Currently Conducting a Special Marketing Test and... FOR A LIMITED TIME YOU'LL PAY JUST \$13.97! "Software Maker Pro" will not only save you time and money, it will also provide you with very nice, high converting software applications for practically ANY market you can imagine. You will be simply amazed by the results you get. FBM marketing eBooks with Resell Rights Quality eBooks with Master Resale Rights and Plug-in Sales Websites!
