

The Art Of Astrology

[DOWNLOAD HERE](#)

Just as there is a side of the Moon which we never see, whose hidden half is as potent a factor in causing the ebb and flow of the earth's tide as the part of the Moon which is visible, there is an invisible part of man which exerts a powerful influence in life. Chances are you have, at one time or another, picked up a daily newspaper and glanced at your horoscope. Maybe what you read fit your day to a tee and you thought "WOW, this horoscope stuff is for real", or maybe it was partially right and you thought "it's so general that it could fit anyone" or maybe it was dead wrong and you scoffed, thinking "what a load of you know what". Well, guess what, no matter which of the above categories you fall in to, you are right! For a horoscope to be accurate, an astrologer must have your exact date of birth...Anything else is just a guess! The planets represent the energies that drive your physical, emotional, mental and intuitional systems. These energies manifest themselves differently depending on the positions of the planets in the signs of the zodiac. Different signs channel the energies into different behavior patterns, which are then recognized as personality traits. With an accurate horoscope you will learn what your best traits are and be able to capitalize on them. So how do you go about getting an accurate horoscope? Well, you can either pay an astrologer to do one (hopefully you find one that knows what they are doing) or you can do your own. That is why this book and the simplified method it contains of making and reading a horoscope in a thoroughly scientific manner has been published, in order to enable anyone who can add and subtract to do the work himself, instead of relying on others. With The Art Of Astrology--How To Make and Read Horoscopes, you will obtain a deeper knowledge of the causes which are operative in life than any professional astrologer who is a stranger can give. If you are serious about astrology, if you want to learn more about yourself and those around you, if you want to learn what life has in store for you, then this 337 page book is for you. Only \$5.97
