I thought I was having a heart attack! My Website host just informed me that their servers had crashed, and that ALL of my files where permanently lost. Within the blink of an eye I had just lost... * All of my Websites * All of my ezine and customer lists * All of my high traffic forums * ... and much much more You know what made this news even worse? The simple fact that I thought I was prepared for something like this. I assumed I was safe from these kind of disasters because my Websites where backed up on a daily basis, only to discover that I was doing it the wrong way! In fact, 9 out of every 10 online marketers are making the same mistakes. Are you one of these marketers at risk of losing everything? My guess is yes.
