Easy CB Store Do you know ClickBank? Yes, ClickBank! Its a company that sells digital products any webmaster can promote and make money online. Having your own ClickBank directory with your affiliate ID automatically embedded seems like a great idea and theres nothing compared to having 1000s of pages that your visitors can search and find any particular niche. It sure beats creating a articles that directs to the affiliate site rite? (**sheesh**...1000 products = 1000 articles?...) Now, dont just rush out there to find the next cheapest script available thatll help you with that....coz Heres some of the wonderful things that this absolutely new tool can do for you! Easy CB Store is a ClickBank Directory PHP script that: Instantly creates a directory of every single product sold on ClickBank.coms marketplace. It takes the latest ClickBank XML file (so that your directory stays fresh with the latest products) and imports it into its database. Allows you to have fast categorization and searching Embeds your ClickBank affiliate ID to each and every one of the links to the products! SEO friendly as it uses mod_redirect and appears as if its completely static! Allows you to compliment your existing sites, as you will be able to define which categories or products that you would like to show indexed! Even allows you to pick the top paying, high profits products as your sponsors! Template driven with {tags} so that you can decide how your directory looks like! (NOPE! No PHP skills required) Every link in your directory is a commision earning link! Instantly clone the entire ClickBank marketplace (more than 25000 links all embedded with your affiliate ID) Does not require MySQL In short, you can spend your entire effort and time wasting time building your affiliate site by manually copying hoplinks..... OR You can have the easiest way to set it up and running in less than an hour! Requirements: Windows ME/XP or higher, PHP 5 (For Parsing)
