Minisite Mastery Lets face it: Managing the creation and development of your websites is a frustrating process! Learning how to create your own minisite could be invaluable when you build your own online business - you simply need access to the right tools. And you too can learn how to do this. PLUS you dont need to give up having dynamic design, page structure, colors, graphics and links to do it yourself!

The #1 Secret To Mini-Site Success! When I started my internet business I was unsure if I could achieve the success I was after - I spent a fortune on site tools and templates to put it all together, but I was frustrated with the results I was getting Thats when I began trying to put my own mini-sites together - that was one of the best decisions Ive ever made. Sure, I was nervous and uncertain where to start. But that was just at the beginning Bit by bit I pieced it together and realized that it was achievable once I had uncovered how to do it. During this process I realized that there was a huge gap out there and that the knowledge on how to build mini-sites was desperately needed I realized if I could do it then anyone could!

What people really needed was a demonstration of what to do. They needed to cut through all the confusing jargon and geek speak! In short, I and others like me wanted a way to bring in real results, using easy to follow instructions and in language that anyone could understand That is why I am
