What if I told you that those scrollable content boxes can now be made search engine friendly? And what if I could show you a way to create and add these boxes to your site in mere seconds? Introducing . . . Content Box Generator Content Box Generator is a brand new desktop application that creates these special CSS/DIV boxes with an easy to use, intuitive interface. Now it's easy as 1-2-3 to create and add these boxes to your website: Step 1: Create your content box with the on board WYSIWYG editor, or simply paste your pre-made content into the editor. Step 2: Choose your border and background options and "Generate" the special code. Step 3: Copy and paste the code into your website. See what I mean? Simple. So why did I have this program created? Well, I have a lot of websites. I spend quite a bit of time adding content, writing sales pages, and - of course - adding testimonials and content boxes. Let me tell you, if you have ever tried to understand CSS or DIV tags, and you don't even know HTML, creating these boxes can be a bit frustrating! And time consuming! After all - you want these to look great and you want them to be unique. I got tired of constantly wrestling with these boxes. Even copying them from other pages got to be tiresome, because you still need to edit them and make them unique! I had Content Box Generator made so I can create these boxes quickly.
