"I'll Show You Step By Step The Methods To Successfully Launch Your Online Products To An Audience That Eager To Buy.." Dear Friend, You know, back when I first started out in online marketing in 2002, there was always one thing that amazed me about this business. This is it: I'd wake up in the morning, and on checking my mail I'd see an ad for a product that would claim that they're only selling 500 copies before pulling it off the shelf forever. I'd think nothing more of it, go about my daily business, then wake up the next morning and check my mail again. What I found never failed to shock me. This \$500 product they were only selling 500 of before pulling off the shelf forever had already sold 250 copies! Now in my naivety I did wonder if they were serious about this or it was just a marketing ploy. Several years down the line however, on meeting these marketers and actually seeing this in action. I now know this is a fact. My next plan of action was to find out how they were doing this. Was it simply through a bunch of joint ventures? Maybe it was because they were already established and they have a huge list to promote to I thought. I was even more astonished at what I found to be true. It wasn't their big lists that were selling them 250 copies of their premium products in 24-48 hours. It wasn't even their joint ventures, it was their plan. You see, they had a very specific start to finish launch day plan that started two weeks before their product was even ready to go, and ended two weeks afterwards. So after almost 4 years of asking questions, I finally figured out what was going on: Here's what I found out. * A full 4 week start to finish, step by step launch guide for your products. *1 reason why a majority of marketers are failing to successfully launch their products by breaking the natural flow and chain of events surrounding a successful product launch. *6 aspects of a successful pre-launch. *Looking beyond immediate profits is ultimately the key to product launch success. *How to almost never run out of prospects to promote to for free ever again. *Are you going to attract affiliates, and are they going to promote for you? *Are you pulling in \$60 per sale when you should be pulling in nothing? *Are the sales of your digital or info product netting you less than \$100 profit per product that you designed specifically to make you money? *Are you building your business for the future correctly through lead generation and list building? *3 list building

and lead generation mistakes of the online marketing newbie. *Are you carrying out joint ventures for profit? If so, you're potentially losing hundreds of thousands in circulation numbers for your products. *4 launch day tips that almost ensure your product launches will go down without a hitch. *6 methods of successful post launch day promotion. *4 tell tail ad tracking signs that will show you what promotion to do and when to do it even after your products have launched.
