To people who want to start investing in Trust deeds - but don't know how to get started. Why Trust Deed Investors Almost Always Leave Stock Market Gamblers In The Dust Are you worried about your investment in the stock market? If you need to secure your retirement, a stock that doesn't return (or downright plunges) can be your worst nightmare. When your money is tied up and not even keeping up with the basic interest rate your savings account would provide you need a change. Trust deed investors, on the other hand, make money on interest every month. And as high as 10, outperforming even your best IRA. If you want to laugh at retirement worries, start investing in Trust deeds today and you'll... Start collecting checks every month. Never deal with the (risky) stock market again. Earn 5 times more retirement income than your average savings account can provide. Dear Smart Investor, High return, low risk? Not in the stock market. One thing is for sure, while there are many differences between Trust deeds and other types of investments a trust deed is an investment opportunity that offers you a high return with less risk. Smart investors pad their retirement fund with Trust deed investments because they can earn up to 10 back on their investment! That's 5 times more retirement money compared to the average savings account or IRA at 2-4. Plus each investment is secured by actual property homes, buildings, or land. Who Else Wants A Padded Retirement Fund? Trust deed investing is a safe way to give someone else a loan, hold property as collateral, and collect interest plus a paycheck every single month. (And borrowers usually pay higher interest rates to Trust deed investors than banks which means more money for you.) Just \$500 earning 10 per year would turn into \$3,363 in \$20 years. Compare that to 2 a savings account may get you \$819.31 on \$500 over 20 years. (You'd lose over \$2,543) And it's easy to cash out. Trust deeds can be traded or sold easily because they're so liquid (i.e. readily turned into cash). You're protected: When you invest in a trust deed, every month that goes by increases your protection because the loan amount continues to be lowered by the monthly checks you receive.
