This May Just Make YOU A Few More Sales Peel Away Ads are very cool in my opinion. I like the fact that there is just a little movement up at the top of the page. There is JUST enough movement to interest someone, but its not right in your face like a pop up box. Humans are a bit curious by nature, so it causes enough interest to get someone to move their cursor up that way by their OWN choice. Im not forcing them to look at that ad. They can either click, or skip it. How nice is that? Make these things visually appealing, and once the peel opens - you may just get ANOTHER click! People will even think its cool! When I saw my first peel ad, I thought wow - thats neat! Wonder how they did that? Others will have the same reaction, because its different. Its not in your face. And its just a really NEAT effect. Meanwhile you have a chance to make them another great offer when they click on the corner of your webpage! All Peel Graphics Complete With .PSD Layered Photoshop Files.
