You've purchased this product with full Master Resale and Redistribution Rights. More The Best Products with PLR or MRR at lucky7.tradebit.com Discover How To Build Long-Lasting, Profitable Websites And Make Money With AdSense And Affiliate Programs Here's a proven guide to long-term, ground-up approach to AdSense and affiliate gold that will NOT make you rich quick, but will guarantee that you stay rich forever. Heres some of the stuff being pedaled by these snake oil merchants: Expensive Miracle Software They try to sell you expensive yet buggy software that promise to make you rich just by clicking some buttons. These applications short-cut the process but dont teach you any lasting skills. You can buy as many of these miracle software products as you want, but without the basic skills youre just shooting blanks with a bigger machine gun. Ready Made AdSense Websites Youve seen these get 100 AdSense-ready websites that come with pre-written web content, RSS feeds and even AdSense codes pre-formatted for you. It may sound like the magic pill youre looking for, but after youve bought the domain name and uploaded your website you quickly learn the truth; there are hundreds, if not thousands of zombie sites with the exact same content, making it more difficult for you by the day. Trust me, you stand a better chance if you didnt use them. Suspicious SEO Tricks and Gimmicks Youre probably NOT an SEO (Search Engine Optimization) expert and the gurus know this. So they conjure up some questionable SEO tactic that works quick-and-easy just the way you like it, get some screenshots to show you that it works, and sell it to you. The truth is, these tricks only last a short time before they become completely useless. Soon you get caught in the self-defeating cycle of trying playing cat-and-mouse with search engines, and just when you discover you cant keep up, the gurus have a new SEO trick for you. They feed you with this crap day-in and day-out, smiling happily with your cash while you go chasing after your dreams. Magic AdSense & Affiliate Systems Have you ever wondered why Coke, Pepsi, McDonalds, KFC and other large multinational billion-dollar corporations NEVER tell you their secrets? Think about it: Why doesnt Coke sell you an e-book on how to make carbonated drinks? The answer is pretty simple they depend on their business secret to survive. The fact is, all systems fail when they are sold or revealed to the public. So why are people selling you ebooks on how to use a secret system they

discovered? Chances are 1) they keep the key secret to themselves while selling you the fluff you can already get for free 2) they've already abandoned their system when they sell it to you, leaving you and a hundred other people to chase for the gold they excavated ages ago. The Secret Hasnt Changed For Over 2400 Years Believe me or not, the real secret to making money hasnt changed for over 2400+ years. Ill give it to you right now: the right skills + the right mindset + working smart Thats what I believe in, and while others fall prey to these snake oil scams, I spend every single day diligently masterminding and working on a couple of my sites that put AdSense and affiliate cash into my pockets every single day without fail. In fact, your great grandfather probably knows this secret already. If you can go back in time, hand him a copy of my material and give him a PC with Internet connection, within days hell be on his way to making his fist commission check from the Internet. Why then, do YOU find it so difficult? Im not trying to mislead you. Im just stating the facts. The fact is that theres no short cuts to success. Deep inside your heart, I know you feel the truth in my words. But the Internet is a confusing place, and with so many voices pulling you in different directions, I dont blame you if youve tricked into believing that its going to be a magic carpet ride. Heres The Deal: This isnt meant for you if youre not there yet. In other words, if you believe that there really is a way you can make money on the Internet without any skills, money or work, this is not for you. Im looking for people who have traveled that road and found nothing but a dead end. Im looking for people who are ready to put all the hype and easy-money promises aside to learn the skills that they need to not only to survive, but also to see some real, lasting results. If youre that type of person, I will show you a ground-up, no-hype-and-BS approach to: Discover Hot Niche Markets - You dont need expensive software for this. All you need is to know where to look, and what to look for. I will show you how the gurus really find the hot, untapped markets to drain cash from. Hint: its not by using some \$150 software! Discover Where The Money Is Analyze the competition to see if theres any real money worth chasing after. Not all hot niche markets are profitable, so if you charge blindly without doing your due diligence, youre bound to get disappointed. The faster you learn to look for the money, the faster you can dump unprofitable ideas and search for the real winners. Maximize Your Returns Discover how to take a single idea and expand it to uncover more hidden gems that when combined, will create a synergistic and exponential effect on your earnings. In other words, Ill show you how to make much more with what you discover, and not leave money on the table. Building Profitable Websites Nobody teaches you the basics anymore, simply because its easier (and more profitable) to

make you believe that you dont need them. I will teach you a few vital skills that will last you a lifetime. The result? Youll be able to build high-quality content websites that no one else in the world will have, standing out from 1,000,000 other zombie sites out there. And best of all, the search engines will love you for it and reward you many times over. **Create Better Content Easily - Content is not king- only unique content really is.** Search engines look for unique content and places a heavier emphasis on this than any other criteria they may have. Yet, most people completely ignore this. I will reveal a handful of skills that when mastered, will empower you to create more useful, original content faster than anyone else, even if you cant write a single word of English. **Organic SEO Techniques For Long-Term Results** Forget the dubious search engine optimization tricks and soup-of-the-day recipes for disaster. All you really need to learn is how to give search engines what they want, when they want it. Create a win-win situation and you will never find yourself in a losing race again. You will never have to worry about losing your rankings, losing traffic or even being banned by search engines like Google, Yahoo and MSN. **Complete Website Set-up Guide** Some people spend thousands on Internet marketing products and yet dont know how to register their own domain. If youre a serious entrepreneur, I will reveal the foundations you need to avoid paying hard-earned cash to others for no more than 5 minutes of their time. I will guide you step-by-step, all the way on researching, choosing and registering your own domain name, web hosting and the whole shebang of having your own Internet business. **Get Hordes of Website Traffic For Free** Discover how you can quickly and easily start getting real traffic to your website using my link building strategy. It doesnt have to take days to attract your potential customers when you know exactly how to do it. **Monitoring For Results** Its no point building a site if youre not sure its producing results. I will reveal the resources I use to make sure all my projects are on track to making money for me. **Real Website Case Studies** I will show you examples of websites that have and still make money for me. We will dissect these golden geese like a lab experiment and study every single organ on a microscope, until you finally say Ohso thats how it works! Theres no better way to learn than to observe the real thing. **Secret CTR Techniques** If you increase your CTR (Click Through Rate) youll double or even triple your AdSense or affiliate income without any extra work or traffic. I will reveal a handful of little-know secrets to making more money with your existing website. Just a few simple changes here and there, and youre set to go! Tags: mrr,
