In todays fast-paced world, you have to make an impact fast! You only have a few seconds to grab your visitors attention, or you risk losing them forever. You need to control what your visitors see and when -- and without a doubt, the most effective way to do that is using popups. But, theres a problem. According to a recent study, it is estimated that 86+ of the visitors to your website have at least one pop-up blocker installed. And to make matters worse, most of the major Internet service providers, and almost every new web browser being released are including popup blockers too! Were you one of the millions of marketers forced, against your will, to abandon one of your most effective advertising methods? Its time to fight back, and were going to show you how to do it. What if I could show you a way to capture your visitors attention, force them to read your most important message, and do it with just a few simple clicks? Would that interest you? Its no secret that popups are effective, but traditional popups only work if your visitor doesnt have a popup blocker installed. Most popup blocker technology works the same way. Almost all popup blockers look for any code that creates a new window, and then closes that window before it even has a chance to open. This seemingly harmless technology is blocking more than just a popup, its killing your profits! IM Popup Uses Proven Technology That Is Advanced Enough To Outsmart Those Pesky Popup Blockers! What you need to create effective popups is a something new. Something that is just as effective as a traditional popup, but smart enough to not fall

prey to popup blocking technology. That is exactly what IM Popup does! You see, this new method of creating dazzling popups doesnt create a new window of any kind. In fact, its actually part of your web page itself! Using IM Popups you can rest assured that your message will show up when you want it and create the impression you so desperately desire. IM Popups bypasses the popup blockers and will give you the peace of mind in knowing that your messages will be seen. What Can I Use IM Popup For? If you want your visitors to know about it, IM Popups are the answer. You can use IM Popups to make sure your visitors know about: Your Products Most Important Feature - Highlight it in a popup and it will really make an impact!
