

Simple Php Shoutbox

[DOWNLOAD HERE](#)

Simple Shoutbox is a simple, yet suitable solution that allows you to place a shoutbox anywhere on your site. Many features have been implemented, and many more will be available in the future. Included Features: * Simple Installation. * Elegant, simple design. * Easy to integrate into any existing webpage on your website. * Spam filter ensures that no one can attack your shoutbox. * Custom word filter where you can easily add words that will be censored. * jQuery UI makes it function beautifully. * Customization such as how many shouts to display at once, or the delay time required between shout submissions.
