Who Else Wants The Master Resale Rights To 9 Magazine Style SEO Wordpress Themes You Can Use Or Sell For 100 Percent Profit? Hi Fellow Bloggers These Wordpress SEO Themes came about when I was looking for a theme with my preferred SEO requirements already built-in but sadly I couldnt find a thing that hit the right spot. So I had to grab some open rights themes and make my own adjustments. By combining the right plugins with some simple changes to the main Wordpress files, I was able to get the right balance of on-site SEO and a blog that still looked good enough to start my own affiliate websites. There was something missing though that would make this a breeze for other folks to use so I had my programmer friend put something together for me. This is the page that makes it super easy for anyone to change the home page to match their own categories - the alternative is to make some changes to the php code itself. The 9 themes included in the package are the just the start - Ill be adding extra themes every week and mailing them out to all subscribers. Here is what you get in this package: \* 9 SEO Wordpress themes (more to be added) \* 4 essential plugins (plus updates) \* Detailed pdf user guide (& Word doc for resellers) You can use these themes for almost any purpose, e.g. start your own blog, use them to create and flip blogs or even add them to your membership site.
