

Erasmus In Spain: Audio Vocabulary For English Tongue Studen

[DOWNLOAD HERE](#)

This Bilingual Audio Vocabulary was written in order to help you to improve your foreign vocabulary and easily experience a period as Erasmus student. Its aim is to list 2000 Erasmus essential words in two languages. Its an innovative course that differentiates it from other available books usually focused on travelling. Innovations are (I) the selection of a limited number of words: 2000 very important words useful especially in the first month, (ii) its flexibility as its a small book which can be brought always with you and used with Mp3 (iii) it stimulates different skills: reading, speaking, listening, writing, active learning. In fact, within the first month an international student should find an accommodation, deal with the bank, find a considerable number of answers about the town, the university, transport system etc. Topics covered are: Food and beverages, banks and money, universities, around the town, at home, clothes, health, hygiene and welfare, transportation, accommodation, orientation and a virtual rental/lease contract. Audio files are available on demand and can be purchased on the book webpage. The audio vocabulary has twenty 100-words chapters (tracks) listed and pronounced in two languages. To purchase the Mp3 files, please visit the website as indicated in the dedicated page. Find the book on amazon: ISBN-13:

978-1460967423 ISBN-10: 1460967429
