The Simplest Method To Manage Your Paypal Transactions! Turbo Transactions Manager may be the quickest and simplest method to download, import, sort, file and set of your PayPal transactions. Simply install the PHP/MySQL script on any PHP-enabled Linux, Unix server and also you get instant treatments for your PayPal transactions via any Internet-connected computer on the planet! It truly is that simple. Heres What Turbo Transactions Manager Does: Imports your PayPal transaction records using files produced through the PayPal Download History Manager. PayPal allows you select the time frame and transaction types. What this means is you are able to download as often as you would like, even every single day if you want to. And do not worry about accidentally posting duplicate information -- Turbo Transactions Manager is simply too wise to help you to do this. Lists all transactions or else you can filter or search by these groups: Transaction Type Transaction Date Transaction Status Customer Title Payer Email Receiver Email Make your own custom groups and Turbo Transactions Manager will remember and employ them! You may also choose multiple sort and filter choices for some of the groups. You control the versatility you control the energy with point-and-click ease. Area Picker allows you select only the data fields you want to determine onscreen as well as in your reviews. The fully-flexible interface allows you add, remove and restore the available transaction fields. Print Reviews using any available filter condition and also the Area Picker configurations. Turbo Transactions Manager results clean, well-formatted reviews to the installed printer on your computer or network. You may also print to Pdf for those who have a PDF driver installed. Export Records to industry standard CSV files using any available filter condition and also the Area Picker configurations. Choose With titles or Without Titles based upon your software needs. The released file could be imported into MS Excel and several other programs including popular accounting software. Finally you can handle your PayPal revenue inside a professional manner. With Turbo Transactions Manager it is simple to track inbound and outgoing obligations, refunds, charge backs and anything else you have to manage your profit and loss.
